Legislative Team Update

by Amanda Duchardt
CBH/SAA Legislative Coordinator

Hello CBH friends and family! The CBH/SAA Legislative Team has another exciting update for you this month starting with the Fish and Game Commission's (FGC) **denial** of the Humane Society of the US (HSUS) Petition 2021-027 to Ban Bear Hunting!

CBH response to the petition over the last several months included sending letters of opposition to the FGC and California Department of Fish and Wildlife (CDFW) in partnership with dozens of other conservation organizations. These letters meticulously refuted the erroneous and misleading claims made by the HSUS regarding the health and status of California's bear population. We know that the criteria FGC uses to make decisions and act on these petitions is grounded in science. Therefore, the cores of our statements were backed by references and summaries of current peer reviewed scientific literature related to bear studies in California.

Heading into the FGC meeting on April 21, we reviewed a six-page letter by Commission Staff and an 11-page letter by CDFW, both of which recommended that the Commission deny the petition on the basis that the "best available science" indicates that there has been "no significant reduction in bear abundances." Per CDFW, "multiple lines of evidence point to an abundant and stable black bear population. Hunting affects only a small fraction of that population and serves as a management tool to provide key population monitoring data that cannot be easily obtained otherwise."

Although the Commission Staff and CDFW recommendations were a positive indicator of how the Commissioners may vote, we didn't let our guard down and proceeded with plans to provide verbal testimony at the FGC meeting.

On April 18, Patrick Brannon (CDFW Region 4 Legislative Rep) and J-Barr (CBH Small Game Committee Chairman) attended a preparatory call hosted by the grassroots organization HOWL for Wildlife (<https://www.howlforwildlife.org/>). HOWL explained how the public may participate in the FGC meeting and shared dozens of one-minute testimonials highlighting different aspects of why the Commission should deny the petition.

Similarly, on April 20, the CBH Legislative Team held our own strategy meeting and crafted key elements of our

testimony. Robert Moore was a wealth of information and history and in a great show of collaboration, everyone was able to chime in with their thoughts and perspective. Thank you, Robert, Chriss Bowles (CBH/SAA President), Patrick Brannon, Wayne Raupe (CBH/SAA Past president), J-Barr, James Galliver (CDFW Region 5 Legislative Rep), Brad Belvedere (CDFW Region 3 Legislative Rep), and Teri Faulkner (CDFW Region 1 Legislative Rep) for your input and support!

Knowing that the FGC meeting would run long and that no one knew when the Commission would arrive at this agenda item, we set up a group text message so that the team could track the meeting progress and alert one another when the time approached! Several of us monitored the meeting from 8:30am until 4pm when our turn finally arrived!

The public comment period was preceded by a short presentation by CDFW on the current bear population models, updated modeling in progress, and a summary of multiple independent studies all concluding a healthy and stable bear population in California. Each speaker was then given 1 minute to testify in support or opposition to the petition. Cont. on page 7

Robert Moore Bowhunter Education Instructor of the Year—2021 (Cover story)

Once a year the Department of Fish and Wildlife has an opportunity to recognize one of our instructors for their excellence in Hunter Education. This year I had a distinct honor to show our appreciation for a friend I've known for more than 30 years, Robert Moore. For most of that time, Robert has been both an international bowhunter and a master bowhunter education instructor.

Through his passion for archery and hunting, Robert has had a tremendous influence on our sport. He's worked within the California Department of Fish and Wildlife, collaborating with staff and management for years on the behalf of the California Bowmen Hunters and State Archery Association.

In recent months, Robert has been singularly responsible for changing the minimum draw from an unenforceable 140 yards, to a 30 pounds or more; this change enables more people to enjoy the sport of bow hunting, especially young people and women.

For those that know him, it will be no surprise to learn he's also a level three instructor and coach for USA Archery, and the coordinator for Maya Archery Club's youth program.

Robert has also distinguished himself as a champion archer competing in numerous tournaments and is more than capable of challenging anyone in his circle of friends.

Robert loves to hunt and his expertise has resulted in the taking of considerable game with his bow. Few have been as prolific and successful in the arena of bow hunting and bow hunter education.

With these and in so many more ways Robert has proved himself a worthy spokesman for California sportsmanship and archery. I'd like him and all of you to know how much we appreciate his efforts. We thank him for his commitment and dedication to the sport. Robert, congratulations on being named The 2021 Bowhunter Education Instructor of the year.

26th Annual Tilapia Shoot "Results are in"

JBarr

Congratulations to **Dylan Roney** for winning the biggest tilapia harvested at a whopping 5 lbs- 0 oz. Dylan also WON the biggest Carp harvested at a whopping 14.14 lbs, and that also means that Dylan WON the big carp \$JACKPOT\$. Other winners included Nate Burt, Ricco Gulin, Karen Keating, Nick Day, Amanda Duchardt, Jake Ashbaugh, and of course, DYLAN "If You're Not First Your Last RONEY." Continued on page 6

**Do you have a special story
or information to share?
Maybe a family tradition?
Contact: Lori Raupe, CBH Editor,
she will help you with your story!
Deadline for August issue is
June 25th!**

26th Annual Tilapia Shoot- A special congratulations goes to Amanda Duchardt for harvesting her first bull frog! She honored her frog by entering it as part of her list of species for the record book. This adds to her personal goal of harvesting game with her bow. A special thanks goes out to her two guides Brad Grap and Brandon Maynard who were critical to a successful bull frog down.

We also want to recognize Karen Keating for coming out and connecting with her first Tilapia that came in at 2.7 pounds and won a 1st place in the woman's division. Credited to her success was Wayne Raupe. Did I mention, Karen drove all the way from San Jose for her first bow fishing experience. It was not short of adventure, chasing bull frogs at night with a compound bow, and Tilapia by day. This is no easy task and Karen was a trooper as she shot those little targets at close and long distance. This showed the expertise and skill needed, even for an excellent archer like Karen. Next year Karen, we would love to have you back again at the shoot.

The Small Game Club Committee would like to thank all those who participated in our 26th Annual Tilapia Shoot. A big thanks to Willow Creek Archery and Sportsman's Warehouse for reaching out and donating gifts to our cause of "FINS, FEATHERS, FUR and FUN!" Results on page 12.

PS: Come to the Carp Shoot at Lake Isabella on June 11th and 12th. Find the ad and registration on pages 13 and 14.

"50 Ways to Leave Your Lover"

Lori Raupe

Years ago Simon and Garfunkel had a popular song, *50 Ways to Leave Your Lover*, and although you won't be able to sing this story to the tune, that's what came to mind when I heard Wayne Raupe achieved his fiftieth specie to qualify for the prestigious Double Golden Eagle Award. Nothing we achieve in life comes without sacrifice, and especially so when earning this monumental accomplishment.

The reason the song comes to mind, I suppose, is that for every species, there is a hunting trip and often someone left behind. Truth be told many more than fifty hunting trips are unrepresented with a success like this. Being one of those "left behind," there were many times I thought he must really love this sport, to get up so early, to spend days, weeks, months, even years doing this thing.

Back in the day, I remember his truck pulling out of the driveway as he left on his next hunting quest, and later his return. He was sometimes empty-handed. It always amazed me that he loved the trips either way, bringing home an animal, or not. Often he would talk about the success of his partners with great excitement, way before he spoke of his own.

It isn't easy to be married to a hunter, and wives (or husbands) you may understand when I say it is a mixed blessing. Sometimes when the truck pulls out of the driveway you're really glad to see it go. A day alone to do anything you please, without interruption. Heaven right?

Sometimes you wish you were going on the adventure, feeling somewhat abandoned. All of these trips with only a few exceptions, the truck pulled away and I was left behind. Don't feel bad, I don't at all, not every hunters' wife or husband for that matter, wants to hunt, or is able to hunt. Seeing your hunter happy somehow makes it all worthwhile.

Success is a wonderful thing, faith is even greater. What we hope for, and have faith to achieve, seems like a giant mountain. Then when we are finally on top, we see an even taller one in the distance. I remember the first 25 species. I was thinking great, maybe he will stay at home more. LOL Nope, he must have read my mind, because he quickly said, "I'm going for 50!" Yes, there is another mountain! Continued on page 7

50 Ways to Leave - From page 6 - Going into nature looking for all kinds of moving things, excites the soul of each hunter. Having faith in all things seen and unseen, skills, experience, and at times even a little luck is required!

These are the 50 ways Mr. Raupe achieved success: MOURNING DOVE, WIDGEON, SNIPE, ENGLISH SPARROW, GREENWING TEAL, MALLARD, COOT, EURASIAN DOVE, CALIF QUAIL, STARLING, POONBILL DRAKE, PIDGEON, MULLET, ROUND RAY, BAT RAY, BUTTERFLY RAY, NEEDLEFISH, SARDINE, SHOVEL NOSE SHARK, ANCHOVY, CARP, DOG FISH, SPOTFIN CROAKER, LEOPARD SHARK, TILAPIA, NIGHT SMELT, THORNBACK RAY, PRUSSIAN CARP, BADGER, BLACKTAIL JACKRABBIT, COTTONTAIL RABBIT, COMMON GROUND SQUIRREL, GOPHER, BEAVER, MUSKRAT, WHITE TAIL ANTELOPE GROUND SQUIRREL, GREY TREE SQUIRREL, MARMOT, BROWN EUROPEAN RAT, RACCON, OPOSSUM, NORTHERN PACIFIC RATTLESNAKE, SOUTHWESTERN SPECKLED RATTLESNAKE, SOUTHERN PACIFIC RATTLESNAKE, MOJAVE GREEN RATTLESNAKE, WESTERN DIAMONDBACK RATTLESNAKE, RED DIAMONDBACK RATTLESNAKE, NORTHERN MOHAVE RATTLESNAKE, BULLFROG...

Yes, there is one more, the last one, number 50, a pack rat! I wish it was a little more glamorous! Yep, a pack rat, humbling. He had hoped it would be a mink or beaver, nope a pack rat!! I am reminded of the skill it takes to successfully hunt a rat. Fifty species, it's a lot to take in isn't it?

So there are many ways to leave your lover (to go hunting). You can, "Slip out the back, Jack (especially if you have small kids at home). You can

make a new plan, Stan. You don't need to be coy, Roy. Just listen to me. Hop on the bus, Gus. You don't need to discuss much. Just drop off the key, Lee, and get yourself free." I think the words that hit home are in that last line, *get your self free*. That sums it up I think. The freedom of being in nature is the calling for a hunter. Everyone finds freedom in doing what you love, albeit it may be different for each of us.

If I can impart a little bit of wisdom learned from being the wife of two hunters in the past 45 years or so, make sure you are doing your part to fill each others cup. Even when your cups are filled by different things. Stay connected, communicate and appreciate each other for who each of you are. Whether you share the same interests or not, love and appreciation are more important.

So, on that note let me say...Congratulations, Mr. Raupe, you did it! Wait? Wait, WHAT? Another twenty-five.....you better slip out the back Jack... or take the grandkids with you.

Legislative Team Update from page 4- Over TWO HOURS of public testimony followed!

Our lobbyist Bill Gaines attended the FGC meeting in person in Monterey, CA and provided verbal comments on behalf of the California Hunting and Conservation Coalition (CHCC), including CBH/SAA. He was also quick on the spot when the Commissioners had follow-up questions regarding HSUS definition of "trophy hunting" in which they stated that the primary motivation for bear hunting was the fur and photo opportunity, not meat. Bill explained that hunters use every part of the harvested animal and that not to take and use the meat would be illegal under "wanton waste" regulations.

Four members of CBH also provided verbal comments on the FGC meeting via Zoom – Amanda Duchardt, James Galliver, J-Barr and Patrick Brannon.

Speaking thoughtfully, clearly, and concisely to the Commissioners and hundreds of listeners while a one-minute timer stares you down is COMPLETELY nerve-racking, especially since there is NO warning before they call your name! A couple of us were surprised when our name was called and had to dive back to our phones and scramble for our notes and the unmute button.

Patrick even braved a tornado warning and battled technical issues before he got to speak!

Continued on page 8

Legislative Team Update from page 7- Throughout the meeting, we supported, cheered, and congratulated each other on our efforts and the courage to speak up. I'm very proud of all our team and this was a GREAT team effort!

In total, **74 individuals spoke out urging the Commission to deny the petition** versus 25 individuals speaking in favor of banning bear hunting. When the votes were cast, the Commission denied the petition and we won the day.

I especially appreciated FGC President Samantha Murray's comments ahead of her vote to deny the petition. In summary, she stated that:

- Hunting is legal in CA
- Quoted FGC's mission statement: "We embrace our responsibility to, among other things, secure a rich and sustainable outdoor heritage for all generations to experience and enjoy though consumptive and non-consumptive activities and that does include hunting."
- She "believes in hunting" as a natural way to eat meat, connect people with nature, and cultivate a healthy respect and love for the outdoors.
- Just because 99% of people don't do something (hunting and fishing) doesn't mean that no one should... that's not what democracy means. There needs to be a compelling reason to do so, such as when people, habitat, or wildlife are at risk or when it will bring a significant benefit to the species.
- Hunting affects a small fraction of the black bear population, and it serves as a management tool and provides data.
- Black bears are public resources and FGC's job is to manage them in support of healthy populations into the future. When hunting opportunities need to be limited, the FGC prohibits take.
- The science does not warrant limiting bear hunting opportunities.

In his final comments, CDFW Director Chuck Bonham committed to providing regular updates on the Bear Management Plan in the Wildlife Resource Committee meetings and estimated that the updated plan would be available in about a year!

Not to be completely overshadowed by the HSUS petition, the FGC also acted to refer the following petitions to the CDFW for review and recommendation.

Petition 2022-01 (Benicia Waterfowl Hunting): Request to prohibit waterfowl hunting in specific areas along the shoreline near Benicia and Southhampton Bay and **Petition 2022-02 (Traditional Deer Tag):** Request to create a new class of deer hunting tags restricted to method of take such as traditional archery and muzzleloading shotgun and rifle. CBH/SAA spoke in favor of denying Petition 2022-01 and with some reservation, supported referring Petition 2022-02 to the CDFW. For more information on these petitions, CBH/SAA stance, and to join the Legislative conversation, please check out our newly updated Legislative pages on the CBH/SAA website (<https://cbhsaa.net/Legislative/LegReports>) or contact us at CBHLegTeam@gmail.com.

To review audio/video of the FGC meeting visit: <https://cal-span.org/static/meetings-CFG.php>.

Other Legislative Team actions and updates this month:

- Signed a coalition letter of support for **AB 2344 Wildlife Connectivity: Transportation Projects**, which would improve the health of our deer, elk, wild sheep, and other wildlife by requiring the CDFW to coordinate with Caltrans on identifying areas essential to wildlife movement and habitat connectivity and developing a wildlife connectivity action plan and list of priority wildlife passage projects to reduce wildlife-vehicle collisions and enhance wildlife connectivity.
- Signed a coalition letter of support to the **Bureau of Land Management (BLM) for Wild Horse/Burro Roundup**. Before signing onto this letter, the CBH/SAA Legislative Team ensured that these activities were consistent with our values. We recognized that wild horses and burros are non-native species that have a destructive effect on native habitats, and subsequently on our native species and game animals. Therefore, they require management. However, several of our members expressed questions and concerns about the methods of roundup and management that BLM would employ in the roundup. As hunters, we practice ethical management of game animals through fair chase and we avoid wanton waste. We reviewed BLM management techniques and determined that they are consistent with our values. Refer to the BLM website for more information: <https://www.blm.gov/programs/wild-horse-and-burro/herd-management/gathers-and-removals>

- Continued on page 9

Legislative Team Update from page 8

- We reviewed a coalition letter of opposition to **AB 1901 Dog Training Services and Facilities** but missed the deadline to respond. The author of AB 1901 has agreed to amend the bill in response to opposition from our partners in the CHCC and sent Gaines and Associates some draft amendments. Per Bill Gaines, the bill is much better, but we are still working some minor final tweaks. CBH/SAA will be added to any further letters on that bill, if they're necessary.
- We also reviewed a coalition letter of support for **SB 1244 Department of Fish and Wildlife: Public Resources Account**, which, as amended March 16, 2022, would expressly require that certain Cigarette Tax "waterfowl" funding be allocated directly to DFW for programs which protect, restore, enhance, and/or maintain waterfowl habitats. The funding amounts to approximately \$1.1 M annually. However, California Waterfowl Association (CWA) finalized the letter earlier than expected but committed to CBH/SAA and two additional NGOs to the letter when the bill goes to Senate Appropriations Committee.
- Signed a coalition letter of support for **AB 1753 Fish and Wildlife: Poaching: Probation Periods** – legislation which would reinstate a maximum 3-year probation for four serious violations of the Fish and Game Code including: 1) Section 12012 – The illegal take of wildlife for profit or personal gain, 2) Section 12013 – The illegal take or possession in the field of more than three times the daily bag limit, 3) Section 12013.3 – The illegal take of trophy deer, elk, antelope, bighorn sheep or wild turkey, and 4) Section 12002.3(b) – The illegal sale or purchase of abalone. AB 1753 has been referred to the Assembly Water, Parks and Wildlife Committee but has not been set to be heard.
- **Update on SB 865 Junior Hunting License:** SB 865 passed out of Senate Natural Resources and Water Committee the week of March 7. Next SB 865 was heard by the Senate Appropriations Committee where it was placed in the suspense file for consideration a later date due to their possible fiscal impact to the state. It MUST be pulled from the suspense heard and passed out of Senate Appropriations Committee and to the Senate Floor by May 20th. This bill will increase the eligibility age of junior hunters from 15 to 17 in an effort to influence youth and retain adult hunters. CBH/SAA previously signed a coalition letter of support for this bill.
- **Update on SB 915 Firearms (State Property):** SB 915 passed out of Senate Natural Resources and Water Committee week of March 7. Next, it was heard by the

Senate Appropriations Committee and was placed in the suspense file for consideration a later date due to SB 915 must be pulled from the suspense heard and passed out of Senate Appropriations Committee and to the Senate Floor by May 20th. This bill would prohibit the sale of any firearm, firearm part or ammunition on state property. CBH/SAA previously signed a coalition letter of opposition to this bill.

- **Update on SB 906 Firearms (School Disclosure):** SB 906 failed to pass out of the Senate Education Committee on a 2-2 vote, with 3 members not voting. The author, Senator Anthony J. Portantino (D/25-Glendale), did request, and was granted, "reconsideration" – meaning that the bill could be brought up for another vote at a later date. CBH/SAA will continue to monitor this bill.

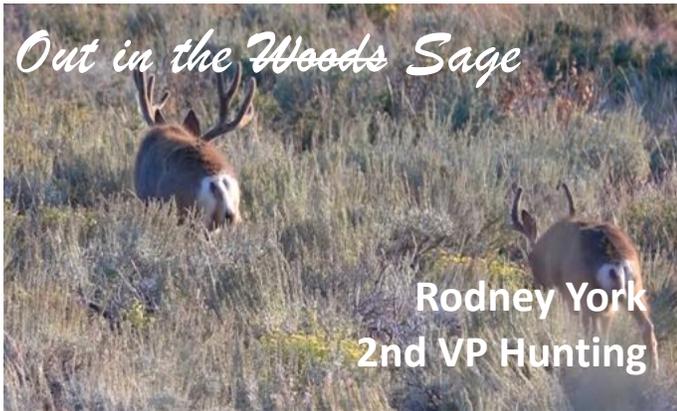

This bill is largely duplicative of existing gun ownership regulations and requirements and represents a gross invasion of privacy with the potential to negatively impact children's educational opportunities, gun ownership, hunting, and funding for conservation. CBH/SAA previously signed a coalition letter of opposition to this bill.

- **Update on SB 945 Falconry.** SB 945 passed out of Senate Natural Resources and Water Committee via a unanimous 8-0 vote. SB 945 will next be heard in the Senate Appropriations Committee later this spring. This bill would allow falconers to again have access to the peregrine falcon for use in falconry for the first time in 50 years! CBH/SAA previously signed a coalition letter of support for this bill.
- **More updates at:** <https://cbhsaa.net/Legislative/LegReports>

Reminder: Whether you've been involved in archery or hunting your whole life, or are new to this sport, **you have something of value to add to the conversation and I encourage you to reach out to me and the CBH Legislative team and share your knowledge and experience!** Our contact info is in this newsletter and on the CBH website. We look forward to hearing from you soon!

For a copy of the latest Gaines Report, please email CBHLegTeam@gmail.com. Want the latest FGC updates and meeting details – visit <https://fgc.ca.gov/Meetings/2022>.

filming Your adventures

About the time you are reading through this, my partner Ron Crouch and I will be in Berrien Springs, Michigan. Bent Bow Productions [Youtube LINK](#) will be conducting a seminar for Compton's Traditional Bowhunters at their [2022 Rendezvous](#). This will be the outline form we are following so don't expect the dialog type reading you may have become accustomed to reading here. On the other hand, here you have the details in writing to refer to should you choose to take the leap and get started - or dive deeper into another hobby you have developed a passion for. When I say passion; that is exactly what filming my adventures have become. This obsession is so deeply rooted it often consumes hunting time. The payoffs for me (and others) are so numerous they can not be named within these confines. Let's get started.

Memories:

Look in the garage, on the wall, at a photograph, a buddies recount - ALL can elicit smells, imagery, wind direction, weather, the terrain, exhibiting a small piece of understanding of creation - this and much more - filming these times stretches forth the amount of enjoyment of those times spent.

WILL it make you a better hunter:

Improve your situational awareness and knowledge of game Patience - Stalking you have to develop skill sets to out think not only your quarry but anticipate where your partner will be and when they are about to shoot. Try to be just off the right or left approximately 5-10 yards back angling toward the intended game.

How to begin:

Identify your needs and desires. What do you wish to gain from this? Who do you wish to share your media with? What is your budget? Backpack/Tree Stand? Considerations 1" Sensor 4K Zoom 10X 12X or 20X XLR Sound Sony FDR-AX100 4K 1" sensor 12x

Continued on page 11

Filming Your Adventures From page 10

How to Start Your Project:

Catch your Eye? - Start videoing:

Objective: Share the entire story (so much more than the kill). Capture the mood of the hunt: the weather, terrain, and adversities.

You will need tons of "B Roll" or "support footage" to involve the viewer in the journey. Film continuously; daily: much easier than trying to "catch-up" or go back. Otherwise all too often it doesn't get done.

Foundational Practices:

Learn your camera - Practice BEFORE your hunt - film family events -

General Rule - Be on the same Plane as Subject **Intrigue** - Break the General rule **Sparingly**
Film from Ground level

Critique sound quality

Creating Outstanding Scenes:

Lighting is Everything - Turns ordinary film into Exceptional

Switch from Auto to Manual Modes

F- Stop / Controlled Exposure (shoot one F stop under) Shutter Speed Focus - Far Eye / Depth of Field

- Keep camera steady. Tripod (a MUST), Bi-Pod, Braced if hand held.)
- Keep camera readily available (strapped outside pack), etc.
- Try to keep clips short 15 seconds or less if possible. (Editing room will thank you.)
- Composition and Framing--(What objects are in your frame--where are they positioned?) Rule of thirds - Lead room - Head space _ 180o RULE
- Vary footage-----Panning (slowly), Zoom (slowly) - easily done with editing tools

Differences hunt video styles.

Multiple Cameraman, Self-filming, Blinds, Tree stand, Pack-in Hunts. etc.

ATTENTION!!!!

At the Annual Meeting there was much discussion on the newsletter and how it should be distributed....

We NEED your HELP!!!

We would like to decrease our cost for the newsletter, but in order to do so, we need to have more of you sign up for the newsletter to be EMAILED TO YOU!!!

There was discussion as to having it as email only....but, we know this will not work for some of you. If you must receive it by mail, we must know this by July 1st.

If you are NOT receiving the newsletter by email yet and choose to change over to email *now*, please send the CBH/SAA Secretary an email advising such. Please one email address per household. Send the head of household name to: mpsevertson@frontiernet.net.

If you are choosing to still receive it by the post office mailing, you may either drop us a note to; CBH, 7710 Camino Vista, Shingletown, Ca. 96088 or, call and leave message at 530-474-3324

Thank you for all your help

TOURNAMENT RULES:

As printed on all other previous flyers Common sense and common courtesy rules apply which means exactly that. For clarification here they are as follows.

- 1) This is a participation tournament which means sponsors pay big bucks to have people participate therefore you must be present to win.
 - 2) All fish and game rules apply.
 - 3) There is a mandatory check in between the Friday morning before the tournament and 7 am the day of the tournament, please check in Friday if possible.
 - 4) You must be at the grandstand at 7 am Saturday morning and may not leave the grandstand area unless your number has been called for release in the tournament.
 - 5) You must bring in all fish once shot.
 - 6) During the night shoot stay clear of houses we don't need the lights upsetting homeowners and causing problems for the tournament.
 - 7) You must be in the weigh in area by 400 pm Saturday evening for the raffle and dinner.
 - 8) Matt Petrini has the right and discretion at any time to clarify further the only 1 real rule, common sense common courtesy, you can be disqualified if there are complaints against your boat for not following these very simple rules.

The folks putting on this tournament are working on a 100% volunteer basis, there is no money made, no donations taken for doing this, there are also no manuals on how to run a tournament therefore we are doing our best and please take it easy on us if there is some sort of mistake or misunderstanding, and if you think something should be done a different way a kind offer of advice would be nice and if its disagreeable, please put on a tournament to your own liking and send us the invite! We are here for fun and that's it, bad attitudes and complaints don't do any good other than to stop the tournament from happening. Thanks are the only payment for all the work.

**Thank You for your Donations to the CBHSAA Legislative Defense Fund!
By Amanda Duchardt - Legislative Coordinator**

The CBH/SAA Legislative Team would like to extend our wholehearted thanks all those that donated to the Legislative Defense Fund. It is our goal to promote wildlife conservation and protect our archery and hunting heritage within the state political system. With your donations, the CBH/SAA Legislative Team can attend important meetings and react to issues that are impacting our sport. We can also meet our financial obligations to Gaines and Associates, who represent us in the state capital and FGC meetings throughout the State. Additionally, it is our responsibility to cover expenses such as when we need to retain a legal team to protect us and our sport. This is why your donations, in any amount, are so important. Again, we thank those listed below in addition to those that donated previously for their support!

THIS MONTH'S DONATIONS INCLUDE:

THANK YOU

Kevin Hal \$40; Amanda Duchardt \$50; David Connor \$40

THANK YOU
