# Golden State Field Archery Classic

By Julie Robinson

As I struggle to find a way to begin this article, I am tongue-tied. So I'm just going to tell it like it is. Back in late February, while I was at one of many work parties at one of my home clubs, Oranco Bowmen Club (gluing targets, which is my primary task), I came up with a hair-brained idea to hold a practice tournament to prepare for the USA Archery National Field Championships/World Team Trials. I approached Chriss Bowles (our Field Range Captain) about using the mountain range for this event. This range is very hilly, a plethora of wide open spaces and can be very windy (as most archers who shot at the range last year for the CBH State Field Championships can attest to, and may never shoot here again, just because of the potentially windy conditions). But this would be ideal conditions as some of us are vying to represent the USA at the World Archery (formerly FITA) Field Championships in Dublin, Ireland, later this year in September 2016.

Becky Nelson-Harris and Julie Robinson - taking aim at a 40 meter downhill shot.

## President's Message -by Wayne Raupe

Well the California Presidential Primary Election Day 2016, has come and gone and we have an interesting November California Election and Presidential Election still ahead. Without a doubt the battle leading up to the election is going to be brutal. At this point, as I said in my message last month, this election is no longer about voting as a Democrat or a Republican. It's about protecting our freedoms, the Constitution, the 2nd Amendment, and of course protecting our hunting and shooting rights! If you are going to vote, which you should, you need to figure out what the candidate's track record has been and what they state they will do or won't do to protect your rights and then vote accordingly.

Let's face it, do you every wonder how much more crazy our elected officials are going to make the laws in our state and our country? Are we just going to stand by and let them continue to do it?!! Twenty years ago we would never believe that we could be arrested for thinking or speaking our mind. Is it possible that one day you could find yourself in a court of law as a defendant because you disagreed with and spoke out against the government, or because you owned or worked at a gas station, or worked at an oil refinery, or if you are a truck driver who delivers oil products or coal, or if you are just out spoken against climate change? I know we all think that this is all farfetched and we say that would never happen. However, we all are going to have a reality check! If you Google and read **California Senate Bill 1161**, known as the **California Climate Science Truth and Accountability Act of 2016**, that is exactly what you will find. You will find that we are subject to all I addressed above, and more, if this Senate Bill passes and is signed into law by the governor. It will be an attack on the First Amendment and our Right of Free Speech and our ability to own a legal business and/or conduct business in this state. Whether you or I believe in Climate Change or not is no business of California's legislators and they have no right to make a law that would incarcerate us for disagreeing with their political agenda. If SB 1161 can happen what makes us think the anti-hunting law makers of California couldn't substitute the words firearms, bows, hunting and shooting into that language? Additionally as you noted in my last month's President's Message the attack on our rights in California are already

happening. The bills and initiatives are already in the system set for the November election and if we don't stand up and get our families and friends to stand up and vote these legislators out of office we will be losing the freedoms that we grew up with.

Remember all outdoor sporting clubs and groups are siblings of our family and we must support our siblings and they will and must support us. So contact your legislators and tell them to oppose any and all bills that attack our hunting and shooting rights, also vote like your sport depends on it... because it does. Do the research, see who will protect you and the freedoms that you love and enjoy and vote for them. Don't vote for those who are willing and trying to take your Constitutional Rights and freedoms away from you!!! Stepping off my soap box for now and moving on to current CBH/SAA events... The Small Game Tilapia Shoot, the State Broadhead Championship and the Small Game Carp Shoot at Lake Isabella are now history. These shoots were a blast and you all should get on the train and compete in these tournaments. They are all different and you will have a BLAST!!! Next weekend is the CBH/SAA State Field Championship Tournament at the Oranco Bowmen's Range in Chino and then the very next weekend is the International Field Archery Association (IFAA) North American Field Archery Championship (NAFAC) and will be held at the same range, the Oranco Bowman's Archery Range. By the time you receive this issue of our magazine they will have already happened but I hope you were able to compete in these terrific contests to test your skill against archers from all over California and North America. The NAFAC is the tournament where our very own little (well not so little anymore) **Montana Wiscovitch set four (4) WORLD RECORDS** last year in Florida. So I hope you took the opportunity to set a **New World Record of your own** and you didn't even have to leave the state to do it!

*(Continued on page 5)*

If you are a new archer and feel you aren't good enough to compete in these tournaments you are wrong. You are good enough to compete in the CBH/SAA Championship Tournaments! Everyone is capable of competing and if you don't win the championship you are preparing for that day when you do walk away with the Championship Title. So don't short change yourself as this is just another step in your journey to being the expert shooter you would like to be. So step up to a new challenge and experience the spirit, excitement and the anticipation of the CBH/SAA Championship Tournaments. You will learn much about archery, your competitors and yourself. You will meet icons you have only heard about and heck you might even shoot with them. You will make memories that you could not make anywhere else. Those of you who are experienced archers who have shot in the championships but haven't been participating in the competitive side of archery for a while get back in it, have fun and rekindle old friendships. Watch for flyers in your monthly CBH/SAA Magazine for dates and information for

the CBH/SAA State 900 Round and the CBH/SAA State Indoor Championships and plan on attending. I hope to see you on the range!

Well I'm going to ask you again... like every month! **Please** send me pictures of your clubs tournaments, activities, special awards banquets and etc. Also, those of you who are successful, or not so successful in your hunting adventures, please send those photos to me. You can include a one page (+/-) story or just captions for the individual pictures and I will get them in our monthly CBH/SAA Magazine. Don't think you have to restrict your stories and pictures just to California hunts or Tournaments... as long as you are a CBH/SAA Member I want your pictures and stories.

**Until next time... be safe, shoot as often as you can & enjoy this sport. Always remember, no matter what kind of stick you shoot or bow you bend we must remain one united and strong FAMILY... Additionally we MUST stand with our siblings and fight all of the battles or we all will fall!**

**\*\*\*Vote for those that will protect your sport!!!\*\*\***

Finally, after three years and many close calls Wayne Raupe bags his Long Beard that measures 11 6/16. Yep! I'm a happy camper! I called the Big Tom in from 300 yards out... that's where it was when I first heard him. I used the old bull elk calling method. That is, every time he gobbled I gobbled back. After about 10 gobbles I put some hen sounds in the conversation and then some more challenging gobbles. I first saw him at 150 yards out in full strut and trotting towards me and my decoys. He stopped behind some low hanging branches at 30 yards to strut. Then he did the "I don't like this" head up high thing. So I pulled on the cord that lowered the tail on my "Killer Bee" jake decoy a couple of times that was 10 yards from me. The tom relaxed and started to strut toward the jake again. When he was at 20 yards I touched the trigger on my release and my arrow left the bow... the picture tells the rest of the story. Like I said... I am one happy camper!!!

*Thank You for your Donations to the  
CBHSAA Legislative Defense Fund!*  
By Robert Moore Legislative Coordinator

I want to thank those that have donated funds to our Legislative Defense Fund. With your donations, you're Legislative Team, representing the six DFG Regions, can attend important meetings and react to issues that are impacting our sport. We can also meet our Financial Obligations to Gaines and Associates who represent us in the state capital, at all DFG meetings, and up and down the state when and where needed. Their goals are to promote wildlife conservation and protect our archery and hunting heritage within the state political system. However, we are, and always will be, responsible for all costs over and above their obligation to us. That is, when CBH/SAA has to retain a legal team to protect us and our sport, it will be at our expense. This is why your donations are so important to the Legislative Defense Fund in any amount you can afford. Clubs, Regions, Organizations and Businesses may show the amount of their contributions as a way to inspire others to do the same.

Again, I would like to thank those listed below in addition to those that donated previously for their support. This Month's Donations include:

*Archery Clubs, Regions, Organizations and Businesses:*  
**Broken Arrow Bowhunters, \$100**

*Individuals:*

**David Conner, \$25, Phillip Muirasko, \$10  
Darick Roney, \$20, Marlin Stapleton, \$100**

*Tournament Donations/Other:*

**Maya Bowhunters, \$289  
Kern River Archers, \$220**

*Monthly donations*

## *CBH/SAA Broadhead Shoot held this year at Lodi Bowmen*

Competition was not lacking in the "Old Goat Class". This coyote at approximately 27 yards presented a tough shot. The arrow with the Orange Nock was shot by Wayne Raupe. Jim Wagner shot second, his arrow has the orange vanes with no nock. Wally Schwartz shot 3rd and crammed his arrow alongside the first two making it easy to score. Great shoot Lodi!!! You did it again!!! 😊👍👍👍

**Legislative Coordinator –  
Robert Moore

### Legislative Information

The next Fish and Game Commission (FGC) meeting will be June 22 & 23 in Bakersfield, Ca. Agenda items of interest, 12. Wildlife Prosecutor of the Year (A) Discuss and approve proposed policy (B) Announce 2016 recipient 26. Wildlife Resources Committee (A) May 18, 2016, meeting summary I. Receive and adopt recommendations (B) Work plan development I. Update on work plan and draft timeline II. Discuss and approve new topics 28. Adopt proposed changes to Commission meeting procedures regulations (Section 665, Title 14, CCR) 29. Adopt proposed regulations to establish a nonlead coupon program (Add Section 250.2, Title 14, CCR) 30. Request for authorization to publish notice of intent to amend falconry regulations (Section 670, Title 14, CCR) 31. Request for authorization to publish notice of intent to amend nongame animal Regulations (Section 472, Title 14, CCR), 32 Request for authorization to publish notice of intent to amend upland game bird special hunt drawing regulations (Section 702 and add Section 715, Title 14, CCR) 33. Discuss proposed changes to upland game bird hunting regulations (Sections 300, et al., Title 14, CCR) 35. Discuss proposed changes to Department lands pass program and lands public uses regulations (Sections 550, et al., Title 14, CCR), 37 Non-marine items of interest from previous meetings, 38 Non-marine petitions for regulation change and non-regulatory requests from previous meetings (A) Action on petitions for regulation change (B) Action on non-regulatory requests (C) Update on pending petitions and requests referred to staff and the Department for review 39. Discuss and act on future Commission meeting items

A Wildlife Resources meeting was held May 18<sup>th</sup> in Sacramento. Agenda items of interest, 1 Approve agenda and order of items, 4 Identify and discuss initial recommendations for 2017-2018 regulations: (A) Mammal hunting (Sections 360, et al.) DFW is still wrapping up the 2016-2017 regulations and does not yet have any recommendations for the 2017-2018 package. Public Discussion: A question was raised about the petition for a traditional archery hunt (Exhibit 4A.1 petition 2015-16) and a desire to further discuss and vet this proposal with DFW and FGC staff. A commenter requested that DFW consider increasing the number of deer tags for B zone by 5,000 tags to address the substantial reduction in tags a few years ago, and tags regularly selling out. In response, a stakeholder raised concern about increasing tags given the presence of wolves in California and the need to maintain a food source for predators. Stafford Lehr noted that DFW may sell close to 140,000 deer tags statewide each year but reported take is only about 10% of those sold; therefore an increase in tags may or may not result in increased take of deer. Finally, there was a comment to consider permitting year-round take of fallow, sambar, sika, and axis deer, 5 Discuss and approve recommendations for enhanced penalties for the

illegal take of game regulations Captain Patrick Foy, DFW Law Enforcement Division, presented an overview of proposed regulations for enhanced penalties for the illegal take of game pursuant to Fish and Game Code subsection 12013.3(b). This section includes establishing a designation for deer, elk, antelope, big horn sheep, and wild turkey based on the size of the animal or related characteristics. The following options are proposed:

- a. Mule deer – 3x3 or 4x4 with a 20 to 24 inch spread
- b. Blacktail deer – 3x3 or 4x4 with 14 to 18 inch spread
- c. Elk – 5 or 6 points on one side
- d. Antelope – 13 or 14 inches
- e. Big Horn sheep – half or three-quarter curl
- f. Wild turkey – 7 to 9 inch beard and/or 1-1.25 inch spurs

Public Discussion: Several stakeholders expressed general support for the legislation and appreciated DFW outreach on proposed regulations. There was some discussion on the need for stricter sentencing in the courts. Stafford Lehr noted that there is a concerted effort to rectify that issue and that the legislation and proposed regulations help address it. He also noted that DFW and FGC are working on the Wildlife Prosecutor of the Year award, which reinforces importance of follow-through in the courts. Committee Recommendation: WRC recommends that FGC authorize staff to work with DFW to prepare a rulemaking package for this regulation consistent with what was presented and discussed today, 6 Discuss wild pig management Erin Chappell provided a brief overview of previous discussions about wild pigs at the WRC, including the Oct 2015 WRC recommendation that the Commission support legislative efforts to make dealing with depredating pigs more efficient. Additionally, in Jan 2016, Commissioner Sklar, FGC staff, and DFW staff attended a meeting with Assembly Member Bigelow to discuss the issues raised by Assembly Bill (AB) 290. In Feb 2016, FGC directed WRC to discuss possible changes in pig regulations and suggestions for possible legislation. Commissioner Williams invited Commissioner Sklar to share his perspective. Commissioner Sklar highlighted his experience dealing with wild pigs on his own property and need to address the depredation issues. However, he noted that AB290 as proposed did not solve the problem in a way that generated consensus and expressed his desire to use the WRC as a forum to facilitate dialogue and identify areas of consensus. Craig Stowers, Environmental Program Manager with DFW Wildlife Branch, provided an overview of pigs in California including introduction, basic biology, current management, current issues, and possible management alternatives. The alternatives proposed include expanding DFW's Shared Habitat Alliance for Recreational Enhancement

*(Continued on page 10)*

(Continued from Page 1)

Now there are quite a few of you out there that have never heard or seen of this type of tournament setup. On average, it is a two-day shoot, with the first day archers shooting at 24 UNMARKED targets (4 different sizes - 20cm, 40cm, 60cm, 80cm, similar to the NFAA hunter face but black with gold center and scoring rings 1-6) ranging from 5-55 meters, and the second day shooting 24 MARKED targets ranging from 10-60 meters. This type of tournament is widely shot in Europe, unlike here in the USA, you're begging for someone to muscle in the time and energy to set up a range to do such an event. Having a range that provides some hills or woody terrain is ideal, as most World Archery Field Championships have been held in European countries that have such. And boy do they use it to their advantage. It makes it very challenging, compared to NFAA/IFAA ranges, where everything is marked, fairly flat and the shooting lanes wide and clear.

There are only three bow styles (Compound, Olympic Recurve, and Barebow Recurve) invited to participate at the World Archery Field Championships. Those archers shooting Barebow Recurve style are not allowed to have any written memorandum for sight marks, no stabilizers, and no draw checks (clickers). They are, however, allowed to string-walk, which is the preferred method for sighting the target.

So, I came out the day before the event and set up the course. Getting a late start because I didn't have access to the quad to transport targets, stakes and cones, the winds took a toll on me in the midafternoon. I believe I set up a pretty challenging course for those willing to brave the location. We have had this type of prep tournament in past at various locations, but it's been a long time since it was held at the Oranco Bowmen range.

Now here it is, May 21-22, 2016, and the weather played in our favor for most of the morning with beautiful clear to partly cloudy skies and light to fair winds. Though it wasn't a big turnout, the quality of archers was off the chart tops!!! I want to thank these participants for traveling far distances to get the opportunity to shoot a rare and well set up course to challenge them for the up and coming national championships. It was nice to shoot with world class, world champion archers.

Even though it was a practice/warm up (unofficial) event, we all stuck to the rules. We had 10 Barebow Recurve, 1 Longbow, and 1 Jr Olympic Recurve archers participate, and I would like to recognize them with their name and location from where they hail - from traveling the furthest to closest.

Cesar David Vaughan - Anchorage, AK  
Rick Stonebraker - Houston, TX  
Laurie Robinson - Portland, OR  
Rebecca Nelson-Harris - Nevada City, CA  
Daryl Harris - Nevada City, CA  
Mark Applegate - Nevada City, CA  
Alan Eagleton - East Palo Alto, CA  
Richard Doria - Chandler, AZ  
Mike Brown - Chula Vista, CA  
Anna Miscione - San Diego, CA  
Julie Robinson - Pasadena, CA  
Steve Russell - Buena Park, CA

So, don't be surprised to see some of these archers on the list to be representing USA in Dublin, Ireland. That's my story and I'm stickin' with it.

Anna Miscione, our Jr Olympic Recurve archer takes aim at a 20 meter shot uphill and thinking to herself -'my that target looks tiny from here'.

David Vaughan and Daryl Harris give it a go at the 15 meter uphill shot.

Mark Applegate takes aim at a 15 meter shot uphill as Alan Eagleton & Rick Stonebraker wait their turn.

**GSFAC Archers** - from l to r - David Vaughan, Steve Russell, Becky Nelson-Harris, Anna Miscione, Mark Applegate, Alan Eagleton, Richard Doria, Daryl Harris, Laurie Robinson, Julie Robinson, Rick Stonebraker, Mike Brown

A 60 cm target face used for the World Archery (formerly FITA) field round.

(Continued from page 7)

(SHARE) program, reducing fees for pig tags, and changing the classification from game mammal to non-game mammal. Public Discussion: There was a robust discussion about a number of management options and concerns. The comments received are consolidated and summarized, Species designation –some support for keeping pigs as a game mammal, while others questioned whether pigs, as a non-native species, should be afforded the same protections as native game mammals. Hunting – pigs were noted as a highly valued game species that provide good hunting opportunities SHARE program –some support for expanding the program

Revenue –discussion centered on allocation of funds. Some support keeping revenues from hunting tags going to the Big Game account. Others noted that if the designation is changed, fund allocation should change and funding for research and efforts to reduce the population should also be considered. Some did not support revenues being used to repair damage by pigs on private property. There was some support for replacing tags with a validation. Commissioner Williams asked about potential impacts to revenues associated with a switch from tags to validation. The general response was that total potential revenue impacts are uncertain, but are not expected to be significant. Stafford Lehr suggested that an analysis via the Automated License Data System

(ALDS) comparing hunters that bought one tag versus multiple tags could provide insight on potential impacts. Another suggested a review of changes in revenue and number of purchases when the price of the book of tags was changed previously. It was noted that the ecological benefits of increased take of feral pigs may far outweigh the money that would be used to fund big game projects. There was a question raised about how much money is spent by DFW to management the species versus the revenue gained. Stafford Lehr responded that they have begun to document this and could provide number of incidents and hours spent as an estimate of expenditures. Licensing – there was some support for requiring a license for night hunting for both safety and enforcement reasons and a comment that all take should require a license for safety reasons. Access – access was raised as an issue. Some opportunities do exist on private property, such as through the SHARE program or through private hunts, but those only exist to the extent that private landowners are willing to participate. It was noted that insurance is an area that should be explored further. Depredation – some concerns about potential impacts from use of lead ammunition and ensuring proper disposal of carcasses to avoid attracting predators were raised. Take – concerns were also raised about methods of take (traps, snares, hounds, poison, aircraft) and fair chase. Others supported expanding sportsman’s ability to take (methods and time of take). There was a suggestion to also consider nonlethal options as a means to manage species. Impact of pigs – it noted that hunting can contribute to perpetuating the pig population through importation and relocation. Craig Stowers noted that the Department of Food and Agriculture manages livestock so any proposals related to that would require coordination. Also discussed were impacts pig have on habitats for all kinds of species and the importance of reducing those impacts. There was a suggestion that management should consider regional and local options rather than broader statewide regulations as the one-size-fits-all approach won’t work. A concern was raised that feral pigs, left unchecked, can become a major health hazard along and that the interface between wild pigs and the urban/suburban environments should be evaluated. Management – comment that this might be the topic that stakeholders can reach consensus on, especially if the goal is a focus on better management. There was

some discussion on efforts in other states to manage pigs and how those approaches could inform this effort. A need for the group to get on same page with regards to the current status of pigs in California was noted, as there are some indications of drought impacts on the population. Finally, there were a couple suggestions on presentations to help inform the WRC: A presentation from Tejon Ranch on their management; or a presentation from Marc Kenyon, Senior Environmental Scientist with DFW Wildlife Branch, on emerging science and approaches being taken in other states. Commissioner Williams noted some common ground and encouraged stakeholders to discuss and bring ideas forward for continued discussion. All options are on the table and we do not want to cherry pick at this time. Stafford Lehr acknowledged common ground but also highlighted that there are some areas where there is not. He suggesting using that common ground as starting point and agreed that we should consider what is happening in other states, approaches by APHIS, and try to get same understanding of the data so we can begin to look at alternatives and identify preferred solutions, while acknowledging that there will always be trade-offs. Committee Direction: Commission Williams encouraged stakeholders to have conversations, provide feedback on suggestions that are emerging, and reconvene on this topic at the September WRC meeting. At that meeting he’d like to hear from DFW on the data, hear from regional stakeholders about local options, and evaluate statewide and regional options. He also liked the suggestion to have a presentation by Tejon Ranch. He noted that there is more work to do before recommending a specific proposal, 7 Predator Policy Workgroup (A) Workgroup update Erin Chappell provided an overview of the first two Workgroup meetings and announced that the next meeting is scheduled for July 12, 2016. (B) Discuss and approve recommendation for proposed work plan Erin Chappell presented the proposed work plan draft from the April 2016 Workgroup meeting, highlighting the project scope, objectives, and timeline. Public Discussion: There was a comment that the lack of local government representation on the Workgroup is a problem because that is where many of the issues arise. Also raised was concern that the timeline feels rushed and does not allow for science-based review of recommendations or policies that might come from the group, which is important since the Workgroup is not comprised of scientists.

Committee Recommendation: WRC recommends that FGC accept the proposed work plan as presented, 8 Future agenda items (A) Review work plan agenda topics and timeline Erin Chappell reviewed the WRC work plan agenda topics and timeline. (B) Potential new agenda topics for FGC consideration Public Discussion: A stakeholder asked if the coyote status review previously discussed at the WRC would be addressed at WRC or Predator Policy Workgroup. Response from Commission Williams that Predator Policy Workgroup was the appropriate venue for that discussion.

The 2016 California Legislative Cycle has put new meaning in their deceptive process of “Gut and Amend” bills that start out with one objective to act as a placeholder in the process then change the language late in the game to rush it through for approval. Check CBHSAA website under the Legislative link to access the latest “Special Report” from our lobbyist Bill Gaines.

Robert

## A Thursday Afternoon and Evening in Napa and what to do?

By Wayne Raupe

First you stop by Sweeney's Sports and have Chad do some fine tuning on your bow and buy a dozen of your favorite arrows. Ready for an evening of exercise and fun you jump into your vehicle put the peddle to the metal heading south (I think because I have zero direction capabilities in Napa) on your long exhausting journey to the range. You go over the Napa River Bridge and just 5 minutes after you leave Sweeney's you find yourself at the Silverado Archery Club's Range... "a long exhausting journey"? Now it's time to shoot the unmarked 3-D course. You shoot a few targets very well and miscalculate the distance of many others destroying some of the arrows you just purchased at Sweeney's.

You watch some blacktail deer feeding 200 yards from you and hear some long beards gobbling in the distance. You reach the top of the range and you stop to rest. Looking west (I think) you take in the beautiful view... can't remember the names of the mountain peaks or what was under the low hanging cloud but... WOW what a view was painted by the sinking sun.

You continue on to the "Clout". This target is a GIANT Carp with a head like a pig and is named the "WATERPIG". The distance to the "Waterpig" is somewhere under 200 yards. The Waterpig was not being used so you shoot a target that was about 137 yards away. You shoot and think you did ok. You walk up to the target... hmmm... not too bad for having to stack your 60 yard pin a bunch! Two of your three arrows are four inches out of the spot. Your first arrow is on the ground in front of the target as it fell 20 yards short. You only shot three arrows because... refer back to the "miscalculate the distance" sentence! That was straight up FUN!!!

You finally make it back to the club house where a thirteen (NO LIE... 13) course BBQ dinner is waiting for you that has been prepared by... Andrea Gregg and Hayley Murphy. They do all of the cooking and food prep for 12 of the 13 courses you are treated to while Bob Pagliusso, Donny Reeve and Blake Hulquist are in charge of Bar-B-Qing the Tri-Tip in multiple 50 gallon drums. You gorge on all of the GREAT food and then kick back in good conversation with 20 to 30 club members.

It's getting late but it ain't over yet... at about 8:45 PM Haley Murphy and Matt Petrini's little boys, Colin and Aidan, ask about seeing the International Space Station. Matt directs them to the club treasurer, Dan Skadal, who is also a Science Teacher at one of the local schools. Dan brings up an app on his Smart Phone and says that the Space Station will pass by us at about 30 degrees above the eastern (I think) horizon... as he just points in a direction. At about 9:30 PM you are told to look in (whatever direction it was) to see bright star that is moving from your right to your left. Hmmm... maybe it's not a star... as none of the other stars are moving like that... hmmm! Then "Mr. Science" confirms you are looking at the International Space Station. WOW!!! You watch as it flies overhead and 10 minutes later it disappears over the far horizon on your left. You are more excited about seeing it than Colin and Aidan are because this is the first time you have ever seen the "International Space Station"!!! Just WOW!!!

So that my friends is what you do on a Thursday afternoon and evening in Napa... if you didn't already know!

**Thanks Silverado Archers... I had a BLAST!!!**

## Broadhead Championship A Big Hit!

If something is worth doing good once then getting to do it twice makes perfectly good sense. So it was for the 171 archers that turned out for the 2016 CBH/SAA State Broadhead Championship on Memorial Day Weekend at the home of the Lodi Bowmen. The range was impeccable and the club vowed to work hard to improve on their stellar 2015 event... and so they did

They served a fantastic barbecue tri-tip dinner on Saturday night to benefit the CBH Legislative Defense Fund. They had golf carts and ATV's at the ready to shuttle shooters into the back country and back. Club members were so hospitable that it seemed like no one was a stranger! Even the weather was perfect.

The Big Game Club provided 3-D targets to fill the range for a two-day, 42-targets each day, one arrow, unmarked event using California legal hunting broadheads. When the dust cleared Joe Frater was the tallest man standing as he bested the Adult Male Release division with the high score for the weekend. Sandy McCain for the women and Gary McCain for the men were once again named Broadhead Champions for shooting the highest score in the non-sighted styles shooting from the longest stakes. Joe Wylie won the \$10,000.00 grand prize in the big Saturday night drawing and CBH President Wayne Raupe swept all of the special drawing awards by selling the winning ticket to Joe and by having another of the tickets he sold win the seller's drawing.

Mabel and Don Ison once again turned up with a large contingent of their kids, some of whom have been around long enough that they are now in the adult divisions. The Riverside Archery contingency was resplendent in their colorful shooting shirts. The ever-smiling Louie Rangel was a welcome sight as well! Ed Fanchin was not able to be there this year having moved to Arizona but was well represented by Brent Miller and his gang in their custom t-shirt acknowledgment to Ed.

Everyone left with smiles on their faces and promises to be back next year. If you have never been to a Broadhead then you won't want to be absent next Memorial Day Weekend when we all meet up again.

Check out the photos and shoot results elsewhere in the newsletter.

**2016 LAKE ISABELLA CARP SHOOT**

ANOTHER GREAT TIME WAS HAD AT LAKE ISABELLA THIS YEAR, JUNE 4<sup>TH</sup> & 5<sup>TH</sup>!

WE HAD 8 SHOOTERS ON SATURDAY AND TWO MORE ON SUNDAY. WEATHER WAS PRETTY DARN GOOD, WITH WIND NOT A FACTOR TILL NOON ON SUNDAY, NICE AND HOT THE ENTIRE TIME. EVERY SHOOTER GOT A NEW "SMALL GAME" TEE SHIRT WITH ENTRY.

THE CARP UNFORTUNATELY HAD ALREADY SPAWNED, SO FINDING THEM WAS A CHALLENGE, BUT BOWFISHERMAN ARE ALWAYS UP FOR A WET CHALLENGE, LOL!

OUR BIG WINNER THIS YEAR WAS BILL KUEHN, WITH BIGGEST FISH, 10LB 7OZ, AND HE WON OVERALL WITH A TOTAL WEIGHT OF 169LBS 3 OZ! WAY TO GO BILL!!

SECOND PLACE WENT TO TRAVIS SCOTT, WITH 154LBS 3OZ, AND THIRD PLACE WAS YOURS TRULY WITH 111LBS 9OZ.

I WOULD LIKE TO GIVE A SPECIAL THANKS TO KERN RIVER ARCHERS FOR LETTING US HOST THE SHOOT FROM THERE RANGE AGAIN! THANK YOU VERY MUCH!

ALSO SPECIAL THANKS TO THE FOLLOWING FOR DONATING RAFFLE PRIZES TO OUR SHOOT:

"WILLOW CREEK ARCHERY IN ESCONDIDO", "ARCHERY SHOP" IN BAKERSFIELD, AND WAYNE RAUPE. THANK YOU GENTLEMEN VERY MUCH.

NEW DATES TO REMEMBER FOR NEXT YEARS TOURNAMENTS:

TILAPIA SHOOT WILL BE MAY 6<sup>TH</sup> & 7<sup>TH</sup>, AND THE CARP SHOOT WILL BE MAY 20<sup>TH</sup> & 21<sup>ST</sup>

WE'RE GOING TO TRY A LITTLE EARLIER AND SEE WHAT HAPPENS.

BRET

## **CALIFORNIA STATE LEGISLATURE**

### ***GUN BILL ACTION ALERT***

**JUNE 6, 2016**

This *Gaines & Associates “California State Legislature – GUN BILL ACTION ALERT”* will provide you with the current status of those gun-control proposals currently pending at the State Capitol which would have the greatest impact on sporting arms and the hunting/shooting community. Due to the unbelievably large number of gun bills now pending, not all firearms-related bills are listed.

*Bills are placed in order of bill number, not priority or severity. To view the most current text and/or associated information of any of the bills, click on the bill number and author in [blue text](#).*

***PLEASE HELP PROTECT OUR SECOND AMENDMENT RIGHTS BY CONTACTING YOUR ASSEMBLY MEMBER AND/OR SENATOR TO URGE THEM TO STRONGLY OPPOSE EACH OF THE BELOW GUN CONTROL BILLS***

**Don’t know who your Senator or Assembly Member representatives are? Find out by clicking [Who’s my Legislator](#)**

#### **[AB 156 \(McCarty/De Leon\)](#) – Ammunition Regulation – **OPPOSE****

AB 156 by Assembly Member Kevin McCarty (D/07-Sacramento) and Senator Kevin de Leon (D/24-Los Angeles) would require all ammunition vendors to obtain an ammunition vendor license and require the Department of Justice (DOJ) to maintain a detailed database on vendors. The measure would also require DOJ to establish a similar database on those who purchase ammunition including their name; date of birth; address; driver’s license number; and brand, type, amount and date of sale of ammunition purchased. In addition, the bill would require DOJ to electronically approve the purchase or transfer of ammunition to the buyer by cross-referencing their information with data maintained in the Automated Firearms System (AFS). The bill would also require ammunition to be purchased “face-to-face” with few exceptions – thus largely prohibiting all internet and mail order purchases unless done through a licensed dealer. Further, the bill would limit the transfer of ammunition between hunting or shooting partners, and even family.

*A “two-year” bill introduced in January 2015 to deal with global warming, AB 156 passed through the Assembly and out of Senate Policy Committee by mid-July of last year. Gutted and amended with new language to attack ammunition purchases in early May 2016, AB 156 quickly passed out of Senate Fiscal Committee and off of the Senate Floor in two short weeks. The bill is now back in the Assembly for concurrence on the amendments and could be voted on at any time. **Please contact your Assembly representative immediately to voice your strong opposition to AB 156.***

To view the Senate Floor analysis on AB 156, click [AB 156 - Senate Floor Analysis](#)

**AB 1135 (Levine/Ting) – Assault Weapons – OPPOSE**

AB 1135, legislation by Assembly Members Marc Levine (D/10-San Rafael) and Philip Y. Ting (D/19-San Francisco), would reclassify some common semi-automatic hunting rifles as assault weapons. Specifically, AB 1135 would amend the definition of assault weapon to refer to a firearm that has one of several specified features and does not have a "fixed magazine", rather than a firearm with the "capacity to accept a detachable magazine". AB 1135 would also close the "bullet button" loop hole by expanding the legal definition of "detachable magazine" to mean an ammunition feeding device that can be easily removed from the firearm without disassembly of the firearm action, or with the use of a tool. This bill would exempt firearms legally possessed prior to January 1, 2017, but would require any person who – from January 1, 2001, to December 31, 2016 – lawfully possessed an assault weapon that does not have a fixed magazine, including those firearms with an ammunition feeding device that can be removed with a tool, to register the firearm before January 1, 2018.

*A "two-year" bill introduced in February 2015 to deal with agricultural products, AB 1135 passed through the Assembly and into the Senate by May 2015. In early May 2016, with AB 1135 already through the Senate, the bill was gutted and amended to deal with assault weapons. Just two weeks later, in mid-May, AB 1135 had passed through the Senate and was back in the Assembly for concurrence of the recent sweeping amendments taken on the Senate side. AB 1135 could be voted on at any time. Please contact your Assembly representative immediately to voice your strong opposition to AB 1135.*

To view the Senate Floor analysis on AB 1135, click [AB 1135 - Senate Floor Analysis](#)

**AB 1511 (Sanitago/Chiu) – Firearms: Lending – OPPOSE**

AB 1511 by Assembly Members Miguel Santiago (D/53-Los Angeles) and David Chiu (D/17-San Francisco) would require the loan of a firearm to anyone – except a spouse or registered domestic partner, or to a parent, child, sibling, grandparent, or grandchild – to be conducted through a licensed firearms dealer. The bill would require any handgun loaned to be registered to the person loaning the handgun.

Currently, law allows for the loan of a firearm between persons who are personally known to each other, if the loan is infrequent and does not exceed 30 days in duration.

*AB 1511 is a "two-year" bill introduced in May of 2015 to deal with energy. In early May 2016, with the bill already through the Senate, AB 1511 was gutted and amended to deal with the loaning of a firearm. Just two weeks later, in mid-May, AB 1511, as amended, had passed through the Senate and was back in the Assembly for concurrence of the recent sweeping amendments taken on the Senate side. AB 1511 could be voted on at any time. Please contact your Assembly representative immediately to voice your strong opposition to AB 1511.*

To view the Senate Floor analysis on AB 1511, click [AB 1511 - Senate Floor Analysis](#)

**AB 1664 (Levine/Ting) – Assault Weapons – OPPOSE**

AB 1664, introduced by Assembly Members Marc Levine (D/10-San Rafael) and Philip Y. Ting (D/19-San Francisco), would close the "bullet button" loop hole by expanding the legal definition of "detachable magazine" to mean an ammunition feeding device that can be easily removed from the firearm without disassembly of the firearm action, or with the use of a tool. AB 1664 would leave the current requirement in the code that, to qualify as an assault weapon, a centerfire rifle must have the capacity to accept a detachable magazine *and* any one of several other specified attributes – including a thumbhole stock or forward pistol grip. Effectively, AB 1664 would prohibit the future sale, purchase, manufacture, importation or transfer of many semi-automatic rifles that can accept a detachable magazine. AB 1664 would also require those who lawfully possessed an assault weapon that does not have a fixed magazine between January 1, 2001, and December 31, 2016, inclusive, to register the firearm by July 1, 2018.

*(Continued on page 14)*

(Continued from page 13)

*AB 1664 passed off the Assembly Floor and over to the Senate on June 1<sup>st</sup>, and will next be heard in the Senate Public Safety Committee on June 14<sup>th</sup>. Please contact your Senate representative immediately to voice your strong opposition to AB 1664. If you would like to attend the Senate Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14<sup>th</sup>, in the Rose Ann Vuich Hearing Room (Room 2040).*

To view the Assembly Floor analysis of AB 1664, click [AB 1664 – Assembly Floor Analysis](#)

#### **AB 1674 (Santiago) – Firearm Transfers – OPPOSE**

AB 1674 by Assembly Member Miguel Santiago (D/53-Los Angeles) would extend the law which currently prohibits an individual from acquiring more than one handgun within any 30-day period to *all* firearms – including common shotguns and rifles used for hunting. The bill would also eliminate the private party transaction exemption to that 30-day prohibition and instead only exempt a transfer conducted through a licensed dealer – if the firearm is being transferred by bequest or intestate succession.

*AB 1674 passed off the Assembly Floor and over to the Senate on June 1st, and will next be heard in the Senate Public Safety Committee on June 14th. Please contact your Senate representative immediately to voice your strong opposition to AB 1674. If you would like to attend the Senate Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14<sup>th</sup>, in the Rose Ann Vuich Hearing Room (Room 2040).*

To view the Assembly Floor analysis of AB 1674, click [AB 1674 – Assy Floor Analysis](#)

#### **AB 1695 (Bonta) – False Reports of Stolen Firearms – OPPOSE**

AB 1695 by Assembly Member Rob Bonta (D/18-Oakland) would make it a misdemeanor to falsely report to law enforcement that a firearm has been lost or stolen. Further, the bill would preclude any person convicted of violating the provision from owning a firearm for 10 years. AB 1695 would set poor precedent in that, historically, misdemeanors that carry a 10-year prohibition on the possession of firearms have been limited to violent crimes.

*AB 1695 passed off the Assembly Floor and over to the Senate on June 1st, and will next be heard in the Senate Public Safety Committee on June 14th. Please contact your Senate representative immediately to voice your strong opposition to AB 1695. If you would like to attend the Senate Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14<sup>th</sup>, in the Rose Ann Vuich Hearing Room (Room 2040).*

To view the Assembly Floor analysis of AB 1695, click

[AB 1695 – Assy Floor Analysis](#)

#### **SB 880 (Hall/Glazer) – Assault Weapons – OPPOSE**

SB 880 by Senators Isadore Hall (D/35-San Pedro) and Steven Glazer (D/07-Walnut Creek) would revise the definition of assault weapon to refer to a semi-automatic centerfire rifle, or a semi-automatic pistol that has one of several specified “military type” features and “does not have a fixed magazine”, rather than a firearm that has the “capacity to accept a detachable magazine.” Further,

SB 880 also attempt to address the “bullet button” loop hole by redefining “fixed magazine” as “an ammunition feeding device contained in, or permanently attached to, the firearm in such a manner that the device cannot be removed without disassembly of the firearm action.

Finally, the bill would require any person who lawfully has possessed an assault weapon from January 1, 2001 to December 31, 2016 that does not have a fixed magazine, as defined, including those with a "bullet button" magazine release, to register the firearm before January 1, 2018.

*SB 880 passed off of the Senate Floor in mid-May and is now in the Assembly, where it will be heard in the Assembly Public Safety Committee on June 14th. Please contact your Assembly representative immediately to voice your strong opposition to SB 880. If you would like to attend the Assembly Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14<sup>th</sup>, in Room 126.*

To view the Senate Floor analysis of SB 880, click [SB 880 – Senate Floor Analysis](#)

### **SB 894 (Jackson) – Lost or Stolen Firearm: Reporting – OPPOSE**

SB 894 by Senator Hannah-Beth Jackson (D/19-Santa Barbara) would require every person to report the theft or loss of a firearm they own or possess to a local law enforcement agency within 5 days of the time they knew or reasonably should have known that the firearm had been stolen or lost. The bill also requires every person who has reported a firearm lost or stolen to notify the local law enforcement agency within 48 hours if the firearm is subsequently recovered. By making it a crime if legal firearm owners don't report their firearms as lost or stolen by a time certain, SB 894 would make criminals out of law-abiding victims.

*SB 894 passed off of the Senate Floor in mid-May and is now in the Assembly, where it will be heard in the Assembly Public Safety Committee on June 14th. Please contact your Assembly representative immediately to voice your strong opposition to SB 894. If you would like to attend the Assembly Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14th, in Room 126.*

To view the Senate Floor analysis of SB 894, click [SB 894 – Senate Floor Analysis](#)

### **SB 1235 (de Leon) – Ammunition Regulation – OPPOSE**

SB 1235 by Senator Kevin de Leon (D/24-Los Angeles) would, among many other things, require all ammunition vendors to obtain an ammunition vendor license and require DOJ to maintain a detailed database on vendors; require DOJ to establish a database on those who purchase ammunition including their name; date of birth; address; driver's license number; and brand, type, amount and date of sale of ammunition purchased; require DOJ to electronically approve the purchase or transfer of ammunition to the buyer by cross-referencing their information with data maintained in the Automated Firearms System; and require ammunition to be purchased "face-to-face" with few exceptions – thus prohibiting all internet and mail order purchases unless done through a licensed dealer.

*SB 1235 was originally introduced in February 2016 to deal with public employees' retirements. In early May 2016, after the bill had already passed through Senate Policy Committee, SB 1235 was gutted and amended to deal with ammunition regulations. Two short weeks later, SB 1235, as amended, passed off the Senate Floor and over to the Assembly. The bill is scheduled to be next heard in the Assembly Public Safety Committee on June 14th. Please contact your Assembly representative immediately to voice your strong opposition to SB 1235. If you would like to attend the Assembly Public Safety Committee hearing, it will be held at the State Capitol beginning at 9:00 a.m. on Tuesday, June 14th, in Room 126.*
