## Legislative Coordinator Report Robert Moore

Fish and Game Commission meeting held May 11<sup>th</sup> by webinar/teleconference. 3. Central Valley sport fishing Consider adopting proposed changes to Central Valley sport fishing regulations and consider taking final action under the California Environmental Quality Act (CEQA). (Amend subsections 7.40(b)(4), (43), (66) and (80), Title 14, CCR) 4. Klamath River Basin sport fishing Consider adopting proposed changes to Klamath River Basin sport fishing regulations and consider taking final action under CEQA. (Amend subsection 7.40(b)(50), Title 14, CCR) 5. Future meeting dates Discuss and consider approving proposed change to next Marine Resources Committee meeting date from July 20, 2021 to July 21, 2021.

Next FGC meeting will be held June 16 and 17 by webinar/teleconference. No agenda has been posted Next Wildlife Resources Committee meeting September 16<sup>th</sup>, no agenda has been posted at this writing.

Legislative information: You can follow current legislation at <http://leginfo.legislature.ca.gov/>

**AB 564** (Gonzalez) – Biodiversity Protection and Restoration Act. AB 564 by Assembly Member would establish the Biodiversity Protection and Restoration Act and require all state agencies, boards, and

commissions to consider and prioritize the protection of biodiversity in carrying out their statutory mandates. The bill would require strategies related to the goal of the state to conserve at least 30% of California's land and coastal waters by 2030 to be made available to the public and provided to certain legislative committees by no later than June 30, 2022. **Update:** AB 564 has been referred to the Assembly Accountability and Administrative Review where it must be heard and passed out to Fiscal Committee by April 30th to meet deadline. Hearing set for April 14 but cancelled by author

**AB 614** Aguiar-Curry. Wildlife habitat: birds. This bill would raise by \$5 the upland game bird hunting validation and the state duck hunting validation fees, as specified, with that \$5 to be deposited, and available upon appropriation to the department for the Nesting Bird Habitat Incentive Program, in the Nesting Bird Habitat Incentive Program Account, which the bill would create in the Fish and Game Preservation Fund. This bill instead would require the Upland Game Bird Account advisory committee to annually review and provide comments to the department on all proposed projects and other expenditures funded from the Upland Game Bird Account to help ensure that specified requirements pertaining to the Upland Game Bird Account have been met and require the department to post budget information and a brief description on its internet website for all projects and other expenditures funded from the Upland Game Bird Account. **Update:** AB 614 is now in appropriations committee hearing set for April 28

**AB 645** (Gallagher) – Fish and Wildlife: Poaching Violations – Probation. Laws which significantly increased fines for possessing more than three times the daily bag limit and for the illegal take of wildlife for profit or personal gain which increased penalties for the illegal take of trophy-class animals took a step back last year when the State Legislature passed legislation that reduced maximum probation from three years to one year for all misdemeanor violations whose provisions do not call out a specific probation length. Because current law does not specify maximum probation periods for any poaching crimes, the effect of this legislation was to limit probation for even the most serious misdemeanor poaching violations to one year. Said differently, prior to passage of last year's legislation, a judge could sentence individuals convicted of serious poaching crimes to probation that would prohibit them from hunting for up to three years. The option of a longer probationary period also helped to ensure that penalty assessments could be collected.

To address this serious concern, this bill as amended March 11, 2021, would reinstate a maximum 3-year probation for the following serious violations of the Fish and Game Code:

- §12012 – The illegal take of wildlife for profit or personal gain
- §12013 – The illegal take or possession in the field of more than three times the daily bag limit

(Continued on page 5)

## Legislative Coordinator Report (Continued from page 4)

- §12013.3 – The illegal take of trophy deer, elk, antelope, bighorn sheep or wild turkey
- §12002.3(b) - The illegal sale purchase of abalone

AB 645 is in appropriations committee hearing set for April 28th.

**AB 804** Megan, Dahle. Free hunting days. Existing law authorizes the Director of Fish and Wildlife to establish 2 free hunting days per year: one in the fall, and one in the winter. Existing law authorizes a California unlicensed resident to hunt during a free hunting day if accompanied by a licensed hunter, subject to certain conditions. Existing law prohibits these provisions from being implemented until the Department of Fish and Wildlife's Automated License Data System is fully operational for at least one year. This bill would require, rather than authorize, the director to establish 2 free hunting days per year, one in the fall and one in the spring, no later than July 1, 2022. The bill would delete the prohibition requiring a delay in implementation of the above-described provisions. **Update:** AB 804 is on the assembly floor for 3<sup>rd</sup> reading

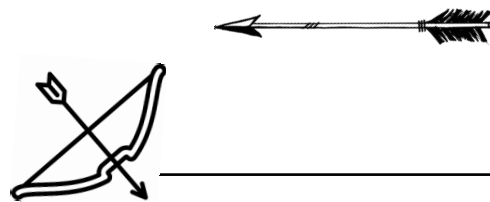

**AB 1223** (Levine) Major rewrite to **The Gun Violence Prevention, Healing, and Recovery Act, The Gun Violence Prevention, Healing, and Recovery Act, would, commencing July 1, 2022, impose an excise tax in the amount of 10% of the sales price of a handgun and 11% of the sales price of a long gun, rifle, firearm precursor part, and ammunition as specified. The tax would be collected by the state pursuant to the Fee Collection Procedures Law. The bill would require that the revenues collected be deposited in the CalVIP Firearm and Ammunition Tax Gun Violence Prevention, Healing, and Recovery Fund, which the bill would create.** The bill would continuously appropriate moneys in that fund to the Board of State and Community Corrections to provide CalVIP grants, thereby making an appropriation. The bill would remove the \$1,500,000 CalVIP grant limit and authorize the Board of State and Community Corrections to determine the award amount. AB 1223 would continuously appropriate moneys in that Fund to the Board of State and Community Corrections to fund CalVIP programs which remediate the effects the illegal use of firearms has in our state.

Implementing successful programs for addressing gun violence is something that all Californians support and would benefit from. As such, all of California should equally help to fund their implementation. However, under AB 1223, CalVIP programs would only be funded by law-abiding citizens who legally purchase firearms and ammunition. Because AB 1223 would result in a taxpayer paying a higher tax, the bill requires approval of 2/3 of the membership of each house of the Legislature. **Update:** AB 1223 has been extensively changed and is now on the Assembly floor **SB 370** Dodd, Wildlife: Big Game Management Account: uses. Existing law establishes the Big Game Management Account within the Fish and Game

Preservation Fund. Existing law requires revenue from the sale of tags for antelope, elk, deer, wild pig, bear, and sheep to be deposited in the account, except as provided. Existing law requires funds deposited in the account to be expended, upon appropriation by the Legislature, by the Department of Fish and Wildlife, solely for specified purposes and pursuant to specified limitations. This bill instead would authorize the department to make grants to, reimburse, or enter into contracts or other agreements with public and private entities, including nonprofit organizations, and federally recognized Indian tribes for the use of the funds from the account to carry out those purposes. **Update:** SB 370 is in the Senate Natural Resources and Water Committee with a hearing set for April 27<sup>th</sup>.

**SB 470** Jones, Fishing and hunting: annual combined hunting and fishing licenses.

This bill would create the annual combined hunting and fishing license that would grant the holder of the license the same privileges as the annual hunting and fishing licenses and that would be valid for a term of one year from the date specified on the license. The bill would limit the issuance of these licenses to residents and would require the department to issue these licenses beginning January 1, 2023, upon payment of a fee of \$100, as adjusted annually for inflation. The bill would require the Fish and Game Commission to adjust the amount of the fee to fully recover, but not exceed, all reasonable administrative and implementation costs of the department and the commission relating to these licenses. The bill would require the department to provide an applicant for one of these licenses the option to automatically renew the license and would provide a 5% discount if the applicant selects this option. **Update:** SB 470 has been referred to the Senate Appropriations Committee.

## 2021 Western Classic Trail Shoot by Pam Severtson

Credit to photographer Monica Standifer

It was a weird year, from canceling the tournament last year, to really looking forward to what 2021 had to bring us. It was the countless hours, every weekend from October on, for many of us working at the range, getting it ready for the WCTS.

What trees had lasted from the Carr Fire in July 2018, were now dead. We had to continuously clean up the debris from when they fell on their own or from us cutting them down so they didn't come down during the tournament. That alone was just about every single weekend. The poison oak was out of control! Yes, some of us had no other choice, but ended up with it...grrr.

Our parking situation was a bit different. We are so sorry that we couldn't accommodate the campers/trailers that couldn't park on our range. The local Bureau of Land Management was not budging on

the camping aspect. They didn't even want us having the long distance practice either. All in all, the parking worked out with the amount of archers that we had.

We had a change of food vendors this year too. The local Kiwanis Club happily took over our kitchen, which they had never done before. They were slammed and exhausted every single day. They did well. And then, there was Goodtimes Pizza. Troy always puts a great pizza event out there for us.

And, unfortunately, due to some mishaps with Montana Silversmith and the shipping/production aspect, the buckles did not arrive in time for presentation at the shoot. However as of this writing, the buckles have all been mailed.

We hope that you enjoyed visiting the vendors and hope you walked away with purchasing some goods. At least, having a better idea of what you want to purchase going forward. We are so lucky to have the vendors come to our shoot. Continued on page 7.

No one ever injured their eyesight by looking on the bright side of life!

We want to THANK YOU all, from the dedicated volunteers (shown above) that did many hours of preparation for the shoot, the archers competing, buying the raffle tickets, buying refreshments and buying from the vendors. THANK YOU to the vendors for your continued support of our event and THANK YOU to all who helped us getting this shoot prepared. We appreciate all of you! Until next year, see you on the ranges!

# TILAPIA AND CARP AND BULL FROGS OH MY!

By J-Barr  
Small Game Club Chairman

The 25th Annual CBH/SAA Small Game Club (SGC) Tilapia Tournament was a success for everyone involved. The weather was a little tough on Saturday with clouds and some wind but that didn't stop **Alan Meurer** from "sticking" the largest Tilapia of the tournament. His big old Tilapia tipped the scales at 5 lbs 6 oz. now entered in the SGC record books. Congratulations Alan!

The weather on Sunday was much better with clear skies, lots of sunshine and no wind. All of the contestants had to be back for the weigh-in by 1:00 p.m. otherwise they would be disqualified from winning the Tilapia Tournament Trophies or money from the Carp Jackpot. Twenty-two tilapia were weighed in over the weekend with more than a few weighing in over 3lbs. **Wayne Raupe** hauled in seven tilapia with the best of the catch weighing in at 3lbs 12oz earning him 2nd place.

A man not afraid of being in the competition, in his boat on the water, was **Gary Roney**. His 3lbs 8oz tilapia put him in third place. All three of these bowfisherman's big fish were entered into the SGC Record Book.

**Barrett Brisbe**, with her friend Matt, drove over 600 miles, from Central California, to enjoy the weekend with us. She earned herself a 2nd Place in the Carp Jackpot with a 16 lbs 2oz Carp. Her carp is also now in the SGC Record Book. Both Barrett, and Matt, were first timers to the Tilapia Tournament.

**Marco Proto**, came in 3rd Place in the Carp Jackpot with a respectable 12 lb 6oz carp. Marco's big carp exceeded the minimum weight of 10 lb to qualify for entry into the Record Book, where it is now listed. He also shot some talipia

that weighed between two and three pounds each. Marco also mentioned he may be entering more species in the next hunting seasons.

**Brad Grap**, a member of the CBH/SAA Big Game Club (BGC) Committee, and he is also an Official BGC Measurer. He has an outstanding big game portfolio in the Big Game Record Book. On Saturday Brad stuck a stud carp! It weighed a whopping 19lbs 7oz and earned him First Place in the Carp Jackpot. His carp has been entered into the SGC Record Book. In addition, he submitted his one tilapia, a 3oz tilapia, This will give him one more species on his list towards getting his Small Game Club Golden Eagle Society Award. Once he reaches thirty-five (35) small game species harvested with a bow and arrow, in California, he will be awarded this prestigious award.

Congratulations also to **Alejandro "Alex" Romero**, who added tilapia to his small game species credits, and to **Kevin Carlson** for adding carp to his small game species credit.

Did someone say, "**BULLFROG?**" Yes they did! And yes you can shoot them with your regular bow. In fact the bullfrog is a non-native invasive species in California. There is no limit nor season on them so you can hunt them year round. They are a reptile and one of the critters you can add to your species list in the record book. You can hunt them during the day or at night with a spot lite. When scanning for a bullfrog with your trusty spotlight you will first notice their two shiny glowing eyes. The smaller the eyes the smaller the bullfrog, the bigger the eyes the bigger the bullfrog. But don't be fooled because some really small shiny eyes are the eyes of the spiders that inhabit the banks at night. Once you have spotted a bullfrog get ready quick because typically they are not sticking around for you to get real close.

Three lucky hunters got there bullfrogs this trip. **Wayne Raupe** harvested his frog on his third shot. Shooting at night, a small target, from 24 yards, is no easy feat! He made a great shot and got a big one. **Talapia Continued on page 9**

**Talapia Continued from page 8 Scott Dayton** is another lucky one who added another species to his growing list. However, his bullfrog was not as far away as Wayne's. In fact, Scott's may have been two or three yards from him, at the most. It wasn't his eyes that gave him up but his RRIIBBIITT that gave his location away. Scott and I had just passed by him and he couldn't stay quiet. I turned and hit him with the light while Scott quickly got his bow ready. He drew back and SMACK! Scott delivered a 12 ring shot at close range, bullfrog number two for the hunters was in the bag. I was the last hunter in need of a bullfrog. Scott and I were in my truck and Brad, Wayne, and Dylan Rooney followed in Brad's truck. As we traveled along the canal bank. Scott nor I saw the big bullfrog on the opposite bank and passed it.

**Dylan Roney** spotted the big frog and they flagged us back to where they had their spotlight on him. As soon as I spotted him I nocked an arrow and took aim. I touched the trigger and pined him against to the bank. But it was not a fatal shot and he was trying to get away. Scott and I had to go back to a bridge so we could get to the other side. When we arrived the bullfrog really wanted to get away and he was working his way off the arrow that was stuck in the bank. I quickly jumped and slid 6 feet down to the water line. I grabbed my arrow and the bullfrog and tossed them over my left shoulder up onto the bank and under my truck. The boys on the other side started yelling, get the frog as he was jumping towards the water. Scott quickly grabbed him and tossed him into the bed of the truck. Now I was stuck!!! The dirt on the bank was not holding me and I was sliding into the water. Then I was up to my shins in water at this point. Wayne, Brad and Dylan are laughing there asses off and telling Scott, "Save J-Barr he can't get up!" Wayne yelled and said he was getting this all on video!!! Aw GREAT!!! Now there's evidence of my predicament and limitations!

I was scratching and clawing at the bank like a FAT lizard sliding backwards down into the water!!! Scott laid down on the ground and gave me a hand and somehow I managed to get up

this very steep bank and onto flat ground up on top. The guys on the other side of the canal were laughing so hard I was sure they peed themselves!!! Bullfrog and hunter accounted for and a new species for each of us hunters. Mission accomplished.

The SGC Tilapia Tournament was a success specifically because 30 great men and women made the trip from Central California, Southern California, and Arizona to shoot fish, laugh, camp, rekindle old friendships and make new friends. All those participating donated their time and money in the spirit of promoting... archery, bowfishing, bow hunting and having fun.

Most participants shot from the shore but we had some who were on the water in small boats. We had people bring RVs, tents and some even stayed at the local hotels. All in all it was a great weekend.

Our Hats off to Amanda Duchardt, Roger Cady, Gilbert Olivas, Wayne Raupe and Scott Dayton the SGC Committee Members for working together and working hard to make all this happen and come together.

Most importantly I want to thank all of you who came out to participate in this fun and exciting tournament. I am looking forward in seeing all of you next year. Shoot Results on page 10

CBHSAA State Legislative Representative for Regions 3 is vacant. Region 3 area covers Alameda, Contra Costa, Marin, Napa, Sacramento (partial)\*, San Mateo, Santa Clara, Santa Cruz, San Francisco, San Joaquin (partial)\*, Solano, Sonoma, and Yolo (partial)\* counties. Anyone interested in filling the Region 3 position can contact Robert Moore for more information. .

## California Big Game Club 2021 State Broadhead Championship

Well, it's History! Now we have to wait another year in anticipation for the 2022 State Broadhead Shoot. More than 180 members came and enjoyed the challenging - but doable terrain and realistic shots presented by Nomad Archers. The "field" however, was level as this course had never been shot before. Nomad Archers worked their tails off creating an awesome shoot in the mid 80's with a welcomed ocean breeze on Saturday. Breakfast Burritos were served each morning and the three

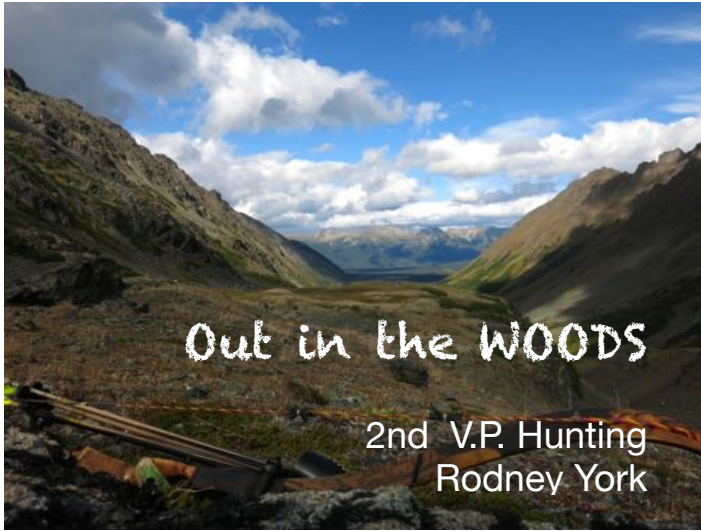

"cook shacks" had hotdogs, hamburgers and assorted other snacks available. Water was a necessity and was liberally consumed throughout the shoot. Of course our military was remembered as we stood in silence after Sunday mornings presentation of colors and flag Salute.

Twenty-three classes of shooters were signed in by our registration team who also maintained and posted scores for interested bystanders. Two hours of raffles and prizes were handed out Saturday evening after the completion of the Clout Shoot and Last Man Standing. **Thank you Nomad Archers for a wonderful weekend of shooting! (See cover picture.)**

**A HUGE thank you to *KUIU* and *Wildlife West, INC* for their support and generosity!** Their clothing and a couple of 2022 Guided Hog Hunts were given away to the CBH members registered and present at the drawing. More next month!

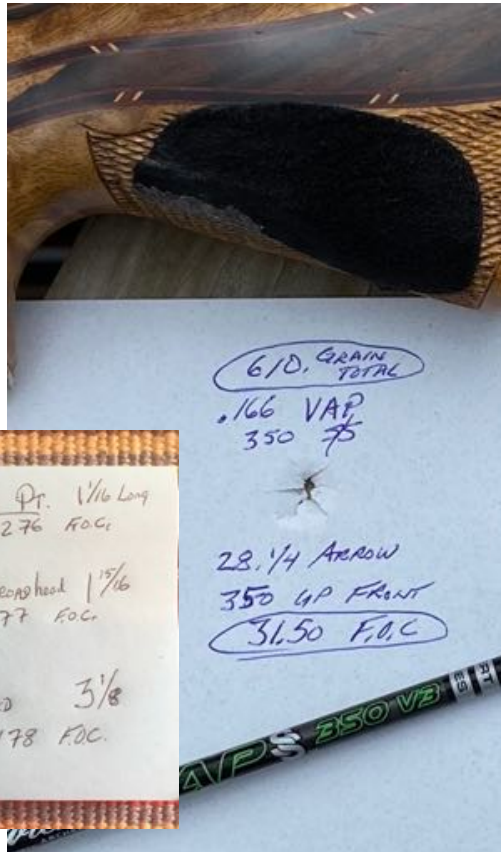

You're sure you have the superb set-up combining proper spine, Forward of Center weight, shaft diameter and the 3:1 broached with a mechanical advantage of 5 for ultimate penetration. You're ready!

Your confidence is high because each day of practice you have stopped shooting on the perfect release that found its mark. Shops and clubs have set-up weekly 3D target shoots and some have even served you hamburgers or hotdogs with your \$15.00 donation to shoot. But that's not enough for you! You tried on your boots again and checked the laces after applying a fresh coat of waterproofing. Tents and ground blinds were taken out of storage,

set up and checked for tears, leaks and the proper number of steaks. It was all a go, so you moved on to your bow. No separation of laminates, no visual cracks or unusual sounds upon release of an arrow. The string was good with a fresh coat of wax and a back-up already broken

State Broadhead Championship has come and gone (look for the results in next month's newsletter). You've already been on-line or down to your local Department of Fish and Wildlife to purchase your license and chosen some of the best limited draw units you've researched. If you're truly lucky you drew some coveted outa state tags.

Ahhhhh,... July; the month every California Bowhunter looks forward to

- well almost everyone. You have chosen your new arrow shafts and fine tuned them to cut bullet holes without the aid of feathers. You didn't stop, saying that's good enough but continued removing 1/4 to 1/8 of an inch until all was perfect.

in sits inside your quiver. You've cleaned your spotting scope, binoculars and camera lens and have back-up batteries, even for your headlamps.

Continued on page 13

Out in the woods, from page 12- All the straps and lashing were in good condition on our backpack and game bags clean and ready for another freezer full. Tree ladders have been inspected and tested along with your lineman rope, safety line and haul-back lines. To savor your trips outdoors you have even remembered to clean both your still and video cameras, replaced batteries and added an extra SD card to secure your added information. You even remembered to activate your **Garmin Explorer** with up-dates and downloaded the newest version of **onXHunt**.

abundant sign. You even logged your campsite, ground blinds, tree stands and game cams. You were smart to plan ahead so much this year and having that list you made last year helped you prepare for this one. You knew you were ready!

You were so far in front of the game this year you actually budgeted time to start scouting by placing your boots on the ground. It was a month before season when you tippy-toed around being ever so careful to approach from down wind and left as little scent in the area as possible. You were careful to move slowly - if at all. You glassed ten times more than walked and when you did you never silhouetted yourself against a skyline as you peaked over that far ridge. Excited by the prospects you downloaded your favorite spots for off-line use after documenting all the springs and seeps where you found

Ahhhhhh; it's awesome July - time to hunt partner - your tag is in your pocket, the heat is on - but you've waited a year for this day to come. It's **OPENING DAY!**

You already slipped into your hydration system and the screen door closed quietly against your back as you eased out - ,... see you out in the woods!

# ISLAND SHOOT

September 12, 2021

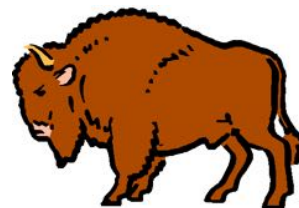

**28 – 3D**

**Thank You for your Donations to the CBHSAA Legislative Defense Fund!**  
**By Robert Moore- Legislative Coordinator**

I want to thank those that have donated funds to our Legislative Defense Fund. With your donations, your Legislative Team, representing the six DFG Regions, can attend important meetings and react to issues that are impacting our sport. We can also meet our Financial Obligations to Gaines and Associates who represent us in the state capital, at all DFG meetings, and up and down the state when and where needed. Their goals are to promote wildlife conservation and protect our archery and hunting heritage within the state political system. However, we are, and always will be, responsible for all costs over and above their obligation to us. That is, when CBH/SAA has to retain a legal team to protect us and our sport, it will be at our expense. This is why your donations are so important to the Legislative Defense Fund in any amount you can afford. Again, I would like to thank those listed below in addition to those that donated previously for their support.

**THIS MONTH'S DONATIONS INCLUDE:**

THANK YOU **Amanda Duchardt \$50, Larry Morehead \$200,** THANK YOU  
**Kevin Hall \$10, Bill Eskridge \$20, Charles Pacheco \$100**
