TURNER'S OUTDOORSMAN

ARCHERY DEPARTMENT NOW OPEN! IN 6 LOCATIONS

Chino Hills • Victorville • Pasadena • Oxnard • West Covina • Fountain Valley

For over 40 Years Turner's has been outfitting Shooters, Hunters and Anglers across Southern California and we are happy to announce our **Full Service Archery Department** to meet the needs of Archers from Beginners to Pros. Whether you're a seasoned bow hunter or a parent with little ones curious about this great sport, Turner's can now get you the gear you need for a successful day in the field or on the range. Turner's is an Authorized Dealer of Bowtech, PSE, Elite & Hoyt Bows. We not only have a large selection of arrows and all the accessories you need from the industry's top manufacturers, we are also a full service pro shop that can assist you with the complete setup, tuning or repair of your archery equipment. We welcome you to stop in our new archery department to meet our experienced Archery Technicians. Test the latest bows on the market in our test range or bring in that old bow of yours and let our pros get it back in shooting condition.

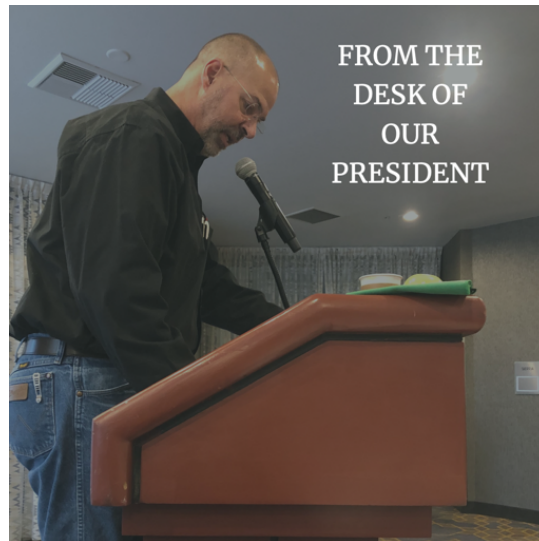

NEW! NEW 20 YD
ARCHERY RANGE
NOW OPEN
IN OXNARD,
FOUNTAIN VALLEY
& WEST COVINA!

Hello all, I hope this finds you well. I missed last month's newsletter and I think I'm in timeout because of it. Getting back to work after a furlough has now found us working 6 days a week and will most likely be doing so through the end of the year. That being said, I am still finding time for the important work of CBH/SAA.

I would like to start this out by offering deepest condolences to the Blanke family. As most of you know, longtime CBH/SAA Hall of Fame member Dee Blanke passed away this last month. She and husband Dick have been invaluable members of the California Archery community for many years. She and Dick's Hall of Fame resume is available on the CBH/SAA website. I will not go into all their amazing accomplishments as it would be way too much to list here. Suffice it to say that few archers will have the impact that she did. We wish Dick and the rest of the family all the best and hope they know that she will be greatly missed by all.

I wish there were more tournaments to talk about, but unfortunately our state has chosen to take this thing to the next level. Many of the rural clubs have been able to re-open and even host a few small tournaments, but the urban clubs in and around Los Angeles and San Francisco continue a very restricted schedule. As all of you know, we have cancelled the balance of the CBH/SAA tournaments for 2020. I wish this were not the case, but it looks like there is just no way to do anything within the variable guidelines throughout the state. I know there are a few clubs holding some tournaments against state, county and local guidelines. Obviously, I would never call them out by name as this newsletter is read by a lot of people. I would just say please be careful. This entire mess will be over on November the 4th 2020. Do not jeopardize your land and lease agreements for a couple of months. I digress... Be advised that NFAA is planning to hold the 3D Marked Yardage Nationals in conjunction with (piggybacked on) Break the Barriers in October at Fresno. Mark your calendars if you are still interested in that shoot. It was sad that Straight Arrow Bowhunters was not able to host the event this year, but I wish BTB the best of luck hosting this event with theirs.

No doubt that Robert Moore will have a detailed report on the current legislative session, but we should get the high points. The 1175 Iconic African Species act looks like it may make it through. Its currently in Senate Appropriations and may pass out. This bill would make it illegal to import some African game species (mounts) back into California. I find it ironic that the bill is authored by a representative that lives in Tarzana. A southern California city named for Tarzan by one of its lifelong residents Edgar Burroughs the author of Tarzan. On a bit of better news, the 3030(Kalra) bill which would have placed needless additional restrictions

and protections on California wildlands and may have threatened hunting and fishing opportunities did not make it out of Senate appropriations. Many thanks to our Government Relations representative Bill Gaines for his tireless efforts on behalf of CBH/SAA and other conservation groups to counter these terrible pieces of legislation being introduced by our elected representatives. Please continue to monitor the CBH/SAA website and

social media for up to minute information on legislation affecting you, the California archer.

I sincerely hope that everyone is enjoying a productive hunting season. I have seen some great pictures of nice harvests and I've heard more than one story of archers coming up empty handed. It has been unusually hot this year so hopefully everyone has had a safe hunt as well as productive. The CBH/SAA Big Game Club has been very active in the last couple of months. I will leave it to Rodney to hit the details but suffice it to say the team has done a great job. With no Broadhead, money has been tight this year as it is for the rest of us, but the committee has made the most of it. I would encourage everyone to get your hunt photos submitted to Rodney and his team and get your face and name up in lights.

Legislative Information By Robert Moore

The FGC meeting was held August 19-20, 2020 by webinar/teleconference. Wednesday meeting is Marine items and no watches there. Thursday agenda is related to inland fisheries and mammal regulations. Items of interest on the agenda #21 – Department Informational Items (B) Wildlife and Fisheries Division, and Ecosystem Conservation Division I. Bacterial Outbreak at Fish Hatcheries

The outbreak of *Lactococcus garvieae* has caused DFW to euthanize fish at three hatcheries and temporarily halt its fish stocking program in Southern California. DFW is expected to propose several new topics for referral to the Commission's Wildlife Resources Committee (WRC).

To review the complete Commission staff summary for agenda item 21 – including the DFW news release: "Bacterial Outbreak Forces Euthanization of Fish at Three Southern California Hatcheries", dated July 20, 2020; and the DFW news release: "Disease Outbreak Strikes California Deer Herds", dated August 3, 2020, click <https://nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=181987&inline>

#22 – Wildlife Resources Committee (A) Committee Work Plan (B) Next Committee Meeting

The next meeting of the WRC is scheduled for September 17th and will be held via webinar and teleconference. • Initial vetting of possible changes to resident upland game bird hunting regulations

• Discussion of and potential recommendations for periodic rule makings for: Mammal hunting Waterfowl hunting Central Valley sport fishing Klamath River Basin sport fishing Inland sport fishing

Staff summary <https://nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=182014&inline>

#23 – Simplification of Statewide Inland Fishing • Separate the regulations for inland trout (non-anadromous waters) from those for steelhead and salmon (anadromous waters) to help provide greater clarity for anglers • Replace the district regulations with statewide regulations separated for trout; and

• Standardize and consolidate the "special fishing" regulations. Regulations used to manage trout populations in California to be addressed under this proposal include: • Seasons (specified dates for opening and closing) • Bag and possession limits • Size limits • Gear and bait restrictions

The Commission is scheduled to further consider and adopt changes to statewide inland fishing regulations at their October 15th webinar/teleconference meeting.

To review the complete Commission staff summary for agenda item 23 – including proposed regulatory text changes, click <https://nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=182031&inline>

#26 – Wildlife and Inland Fisheries Items of Interest from Previous Meetings

This item will provide for a discussion of human/wildlife conflicts resulting from coyotes living in California's urban areas.

At recent WRC and full Commission meetings several members of the public have voiced concerns regarding the increasing frequency of human/wildlife conflicts resulting from coyotes living in California's urban areas. In response, WRC recommended that the Commission host a discussion with DFW and the public on steps that can be taken to address the conflicts. Following discussion at this meeting, Commission staff will recommend that the Commission and DFW jointly host a public workshop to further explore topics such as: • Urban coyote research and additional needs • Agency authorities and jurisdictions • Options for developing coyote plans at the local municipality level • Educational initiatives To review the complete Commission staff summary for agenda item 26, click <https://nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=182034&inline> #27 – Wildlife and Inland Fisheries Petitions for Regulation Change (A) Action on current petitions

I. Petition #2020-008: Elk Hunting Suspension In early April 2020, DFW discovered the presence of a novel disease, treponeme-associated hoof disease, affecting the hooves of Roosevelt elk in Del Norte County. In response, animal-rights interests have quickly taken this opportunity to petition the Commission for an immediate "emergency" closure of elk hunting in the Northwestern Elk Hunt Zone. Under this item, the petition – submitted to the Commission in June by the Environmental Protection Information Center (EPIC) – will be considered. At this meeting, the Commission may deny, grant, or refer the

Legislative Information from page 5- petition to a committee, staff or DFW for further evaluation or information-gathering.

Under typical Commission procedure, the first step would usually be for the Commission to refer a petition of this nature to DFW for review and recommendation. However, in this case 2020 elk tag quotas have already been approved by the Commission and already allocated, via draw, by DFW. As such, the Commission would have to take "emergency" action to immediately revise the already approved 2020 mammal regulations to close elk hunting for the upcoming season in the Northwestern Elk Hunt Zone. DFW leadership is not expected to support the petition's request for an emergency closure of elk hunting in 2020. Further, recent discussions with DFW leadership have indicated that the Department does not believe that there is any reason to close hunting at any time due to the elk hoof disease. Consistent with this position, at this meeting, Commission staff will recommend (and DFW will support) that an emergency situation does not exist and that further discussion of the petition be referred to the Commission's Wildlife Resources Committee (WRC). Note that the next meeting of the WRC is scheduled for September 17th. To review the complete Commission staff summary for agenda item 27 – including the petition for an "emergency" closure of elk hunting in the Northwestern Elk Hunt Zone click <https://nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=182035&inline>

The next Wildlife Resources Committee meeting will be September 17 by webinar/teleconference. No agenda has been posted at this time but reference the #22 commission discussion above.

Legislation

AB 1387 (Wood) – Sport Fishing Licenses: 12 Consecutive Month Licenses; would, in addition to offering California residents a traditional calendar year fishing license, require DFW to offer a license that is valid for 12 consecutive months beginning on the date of purchase upon payment of a fee that is equal to 130% of the cost of the traditional calendar-year sport fishing license. AB 1387 would require DFW to provide applicants for these licenses the option of signing up for automatic renewal of the license by electronic payment and would set the fee for licenses issued upon automatic renewal at the same price as a calendar-year sport fishing license. **Update: Dead, hearings cancelled by author, failed legislative deadlines**

AB 2106 (Aguiar-Curry) –Nesting Bird Habitat Incentive Program: Upland Game Bird Stamp/State Duck Stamp. Legislation passed in 2018 required the Department of Fish & Wildlife (DFW) to establish the "Nesting Bird Habitat Incentive Program" and authorized DFW to make payments or provide other incentives to encourage landowners to voluntarily cultivate or retain upland cover crops or other upland vegetation on their idled lands to provide habitat and nesting cover for waterfowl, upland game birds, and other species. AB 2106 would help generate the funding necessary to implement the Nesting Bird Habitat Incentive Program by raising the California upland game bird stamp and the state duck stamp by \$5 each. AB 2106 would also create the Nesting Bird Habitat Incentive Subaccount within the California Waterfowl Habitat Preservation

Account and require the incremental revenue to be deposited in that Subaccount and available upon appropriation to DFW for the Nesting Bird Habitat Incentive Program. **Update: Dead, failed to be pulled from suspense file**

AB3030 (Ash Kalra) Protect Lands and Water: Would declare it to be goals of the state to, by the year 3030, protect at least 30% of California's lands and waters; to assist with the protection of 30% of the nation's oceans; and to support efforts to protect at least 30% of the world's lands, waters and oceans.

AB 3030 is dangerously poorly written and ambiguous. Among many other things, although the bill calls out goals for the total percentage of our lands and waters that should be "protected", its language fails to identify the extent of existing protections already in place (i.e. the baseline). Even more troubling, the bill does not expressly define what the legislation means by the word "protect". As such, should the intent of AB 3030 be interpreted (and thus implemented) wrongly over the next decade, the "protections" the bill calls for in AB 3030 could easily result in sweeping closures to public access to much of California's lands and waters, and the hunting and fishing opportunities they currently, or could provide.

Update: Dead, failed to be pulled from suspense file

SB 1175 (Stern). Animals: prohibitions on importation and possession of wild animals: live animal markets. **Update: SB 1175 was pulled off suspense, heard, took on some non-substantive amendments and passed out of the Assembly Appropriations Committee and to the Assembly Floor today. SB 1175 must be passed off the Assembly Floor, go back to the Senate for their concurrence of amendments taken on the Assembly side, and to the Governor's desk by close of Session August 31st to remain alive.**

SB 914 (Portantino) – Firearms: Hunting Exemptions. Existing law prohibits the sale or transfer of a firearm by a licensed firearm dealer to a person under 21 years of age, but exempts from those provisions the sale or transfer of a firearm – other than a handgun or semiautomatic centerfire rifle – to a person 18 years of age or older who possesses a valid, unexpired hunting license.

As introduced, SB 914 by Senator Anthony J. Portantino (D/25-Glendale) did little more than require salespersons to visually inspect and record the number, validity dates and GO ID of the hunting license of individuals under 21 years of age who desired to purchase a long gun. However, as amended May 11, 2020, SB 914 would now place numerous additional costly and needless restrictions on the purchase and transfer of firearms and firearm parts by law abiding citizens, while also threatening many youth hunting and shooting programs. **Update: Pulled off suspense, heard and passed out of the Assembly Appropriations Committee and to the Assembly Floor today. SB 914 must be passed off the Assembly Floor and to the Governor's desk by close of Session August 31st to remain alive.**

Legislation has to be completed by August 31 and sent to the Governors for veto or signature.

Bills not passed out of the legislature will not proceed and dead for this session

President's Message from page 4- With a new upgraded website and recently launched Facebook and Instagram social media platforms, it will be a great opportunity to let people see what California Hunters are doing out in the field!

In closing I would like to remind everyone that the yearly meetings are closing in fast. There have been several nominations for the board positions, and it will be important to get all nominations for the board in by October 1st. You will also need to have all petitions for by-law and standing rule changes in by October 1st as well. This is a drop deadline as provided for in the CBH/SAA Bylaws so please do not be late. Late submissions cannot be accepted. This year's banquet in Ontario, California is still a go so start making plans now. We moved it back in February so as not to conflict with the Arizona hunting seasons in January. This is a Big Game banquet and promises to be a lot of fun. Make your reservations as soon as possible.

As usual I wish everyone happy hunting and pray that you keep safe in all you do! All the Best.

JACK RONEY

JBARR SMALL GAME CLUB CHAIRMAN
(PICTURED TO THE LEFT)

Congratulations to Jack Roney for sticking this LARGE 29.8lbs. CARP outside of the delta. Yes, this carp was not taken out of the delta. Would you just look at the belly of that monster? Jack is the youngest shooter to receive "The Golden Eagle Award" to date. Jack is on his way of earning the "Double Eagle Award".

For those of you who do not know what the golden eagle award is, let me explain. You must have entered 35 different species of small game and you will be entered into the "Golden Eagle Society" the trophy will be presented at the Big Game Awards Banquet. You must reach 50 different species of small game to qualify for the "Double Eagle Award". Upon reaching seventy-five (75) different species of small game the hunter will achieve a "Triple Eagle Award" There is less than a handful of people who has reached this milestone. And the way young Jack is going he will be the youngest to a achieve this extremely hard accomplishment for any bow hunter young or old.

For those who would like to be entered into the small game club records please go to <http://cbhbgc.com/SmallGame> there is a \$3.00 per entry fee as you will see it on the form.

Once again, a big congratulations to "Jack Roney" on his outstanding 29.8 lbs. Carp.

CALIFORNIA BOWMEN HUNTERS BIG GAME CLUB POSITION STATEMENT

The California Bowmen Hunters-Big Game Club (CBH-BGC) has historically utilized the Boone & Crockett (B&C) / Pope and Young (P&Y) Measuring system (copyrighted 1887) to record trophy animals taken with a bow and arrow in California. CBH-BGC received copyrighted, but revocable, permission many years ago to utilize not only their scoring system, but their score forms, affidavits, and use of the term 'Fair Chase'. Both P&Y and B&C require an almost identical code of conduct and ethical requirement listed under their respective Fair Chase Affidavits for any animal submitted to their record programs.

On June 14, 2020, your CBH-BGC voted unanimously to continue to align with Pope and Young and Boone and Crockett's Fair Chase requirements and measuring system. Under their rules of "Fair Chase" neither club allows any animal harvested using electronic rangefinding bow sights (Garmin, Burris, IQ, etc.) for entry into their records program. This would violate number III of B&C's Fair Chase Affidavit, as well as #7 of P&Y's Fair Chase Affidavit. (<https://www.boone-crockett.org/bc-position-statement-fair-chase> - <http://www.pope-young.org/fairchase/default.asp>)

While the use of such electronic sights may be legal in California, they, unfortunately, will not be accepted into the CBH-BGC records program, as they clearly violate our rules of Fair Chase. This should, in no way, minimize the trophy taken or the hunter who utilizes such equipment; we (CBH-BGC) simply must maintain the integrity of our records program and continue to practice and encourage Fair Chase.

The Rules of Fair Chase for P&Y and CBH-BGC:

The term "Fair Chase" shall not include the taking of animals under the following conditions: ()

- 1. Helpless in a trap, deep snow or water, or on ice.*
- 2. From any power vehicle or power boat.*
- 3. By "jacklighting" or shining at night.*
- 4. By the use of any tranquilizers or poisons.*
- 5. While inside escape-proof fenced enclosures.*
- 6. By the use of any power vehicle or power boats for herding or driving animals, including use of aircraft to land alongside or to communicate with or direct a hunter on the ground.*
- 7. By the use of electronic devices for attracting, locating or pursuing game or guiding the hunter to such game, or by the use of a bow or arrow to which any electronic device is attached with the exception of lighted nocks and recording devices that cast no light towards the target and do not aid in rangefinding, sighting or shooting the bow.*
- 8. Any other condition considered by the Big Game Committee as unacceptable.*

In closing, the Fair Chase concept extends beyond the hunt itself; it is an attitude and a way of life based in a deep-seated respect for wildlife, the environment, and for other individuals who share the bounty of this vast continent's natural resource.

JUST A FEW THINGS

By George Papac V.P. CBH/SAA

NEW RECURVE CATEGORY HAS BEEN ADDED (RECURVE OFF THE SHELF) In the past, off the shelf recurve and traditional recurve (elevated rest, plunger and a 12inch stabilizer) shooters shot in the same category. I believe that gave an unfair advantage to traditional. Now the two are separated, and off the shelf recurve has its own category, with maximum distance of 50 yards. Traditional recurve yardages stay the same. We are hoping that this will encourage more off the shelf archers to shoot state tournaments. The more support you give the more we can get done.

2020 STATE TRAD. SHOOT There were 161 shooters; 20 more than the previous year. Traditional archery is growing. Everyone had a great time and I enjoyed putting it on. I would like to thank David Roach, President of Verdugo Archer, for letting CBH use their facilities for the shoot. I also would like to thank Bill England for the tremendous amount of work he put in to make the shoot the success it was.

2021 STATE TRAD SHOOT We are very fortunate to have the Fresno Archers host this coming years Trad. Shoot. This is a great venue that includes a huge clubhouse, great fireplace, and plenty of room for dry camping, RV and trailers to park. More on the 2021 shoot and venue as we get closer to the shoot. This year you are going to be able to sign up for the shoot online.

MASTER CALENDAR Club tournament directors: When you are setting up your tournament schedule for the year, look at the CBH/SAA Master Calendar. When there are too many shoots on the same day, it results in all of them having mediocre attendance. If there are any changes to be made to the Master Calendar contact David Bacon on the Web/Calendar. cbhsaa@outlook.com

SATURDAY SHOOT Food for thought, having a tournament on Saturday allows for less congestion of tournaments on Sunday. It also allows people that attend church on Sunday to go to a shoot. And for those who need to get up early Monday morning, it allows them to rest up on Sunday. I also know archers that would attend both a Saturday and Sunday shoots in the same region.

INCREASING CLUB MEMBERSHIP I have found that having a youth program not only keeps archery going in the future but contributes to club membership. The average middle-aged man and woman are not walking down the street wondering what archery club they can join. I got re-introduced to archery because my son came to me and wanted me to show him how to shoot a bow so we went to Pasadena and started shooting. I have other friends that I shoot with that have the similar stories. And from there we all ended up joining Pasadena Roving Archers. By having that youth program going, it lends to family memberships. This is something the family can do together. Even if Mom and Dad don't shoot, they often times will support the club by helping out at tournaments or with work parties.

Friends

By Rodney York

We have written of memories elsewhere in this issue of CBH's Newsletter. While we mentioned that memories could basically be split into two groups we didn't delve into the matter too closely.

Here we will focus on friendship and its' merits. Friendships, like memories can be either good or bad. As long as the purpose of the friendship is centered on making the relationship grow, and it is nurtured; it should create many fond memories. Here I will write of such friendships which like any other relationship have their own trying moments. Yet, each has endured just under fifty years. And, as you may or may not have guessed bloomed out of a love for hunting.

LEARNING THE HIGH COUNTRY

Continued on page 14

Dee Blanke

April 16, 1934 - August 14, 2020

As I sit here and write about Dee, I find the words hard to say,

“Dee has passed”.

There are times that you just don't think that a person would ever be gone. You don't ever want to think about it...her vibrant personality, her brilliant brain, her love for people, her funny character (while in character too), just everything about Dee made you feel warm, loved and comfortable.

Dee was a worker, but she never let it show that it was work. She held the CBH/SAA State Target 2nd VP position for 11 years. She is the one who made the move to have this tournament as a multi site shoot.

Before that she held offices in the CIBA Region as President, Secretary, Treasurer and Vice President. Dee was also on the Lodi Bowmen Board of Directors for over 30 years.

Dee was also an archer. Over her years competing, she received 5-NFAA 1st place, 2-2nd place and 3-3rd place awards. On the state level, she received 3 CBH/SAA 1st place, 2-2nd place and 1-3rd place awards. In the US National Senior Games she won 5-1st place, 5-2nd place and 1-3rd place awards.

Dee was a Life Member of NFAA and of CBH/SAA. She also received an Honorary Life Membership from Lodi Bowmen, her home club.

I know what she meant to me and the impact she made on my life. I know there are countless other people, not only archers, that are feeling the same way as I.

My heart goes out to Dick, her love of so many years, two peas in a pod. May you all say a prayer tonight for Dick, appreciate the loved ones around you and remember that laugh and smile that Dee would give you, even if it has only been one day since you saw her.

You will truly be missed,

Pam Severtson

Dee's Legacy

Lori Raupe

As I read Pam's sweet letter letting us know about Dee, a woman that was passionate about archery among many other things, who loved and was loved by many people. Her life can inspire us to live with the same convictions! That is the legacy we can remember. I am reminded of a poem that was read at my daughter's memorial service over 22 years ago now. It was true of my daughter, and it's true of Dee. My hope is we all live in a way that our dash leaves an impact! Dee certainly lived out her dash in a way that has left an impact!

THE DASH

I read of a man who stood to speak at the funeral of a friend. He referred to the dates on the tombstone from the beginning... to the end.

He noted that first came the date of birth and spoke of the following date with tears, but he said what mattered most of all was the dash between those years.

For that dash represents all the time they spent alive on earth and now only those who loved them know what that little line is worth.

For it matters not, how much we own, the cars... the house... the cash. What matters is how we live and love and how we spend our dash.

So think about this long and hard; are there things you'd like to change? For you never know how much time is left that still can be rearranged.

To be less quick to anger and show appreciation more and love the people in our lives like we've never loved before.

If we treat each other with respect and more often wear a smile... remembering that this special dash might only last a little while.

So when your eulogy is being read, with your life's actions to rehash, would you be proud of the things they say about how you lived your dash?

2020 Small Game Committee

CHB/SAA Broad of Directors has approved the following committee members for our Small Game Club. Please welcome your new committee.

Chairman William J Barr

J Barr <wbwestmark@sbcglobal.net>

Amanda Duchardt

Gilbert Olivas

Rodger Cady

Scott Dayton

Wayne Raupe

We want to thank these individuals for stepping forward and carrying the torch forward with their efforts. If you live in, or north of Sacramento and have a burning desire to assist; please contact J Barr directly, he would love to speak with you! The more involvement we have from our northern hunters the stronger our organization. This would be true for our Big game Committee as well. If your interest lies there please contact Rodney at York@ry69bgc@gmail.com

DIY - European Mounts

By Tim Crabtree

When an antlered animal is taken in the velvet, the head should be immediately removed and placed in a freezer if possible. In this manner the flesh doesn't rot and cause the velvet to fall off. One way to preserve velvet is to coat the velvet antlers in acetone. This process will dry out the velvet and harden it and more thoroughly attach it to the underlying bone.

For animals without antlers the first step is the same, the head should be removed and placed in a freezer as soon as possible. If this is not possible, the hide and as much meat as possible should be removed ASAP. The longer the skull sits in ambient temperature with hide and meat on it, the more the fat will stain the bone.

On ungulates, done in the European style, the lower jaw rarely left attached. Most taxidermists in fact will charge extra to clean the lower jaw. Consequently, the lower jaw is generally removed. All the above procedures should be done before the skull is taken to the taxidermist if this is your choice. This will not only save the hunter money but will result in a higher quality and more professional looking mount. The most important thing in properly caring for a skull, at least a European mount, is to get it cooled down or frozen as soon as possible.

Need more help or assistance; call me and I can walk you through the process. I'll be happy to help you out - *Tim 559.259.0907*

ELK & SWEET POTATOES

JBARR

If you like sweet potatoes, you'll LOVE these roasted sweet potatoes with sage butter. They are very easy to make and a perfect side dish to accompany elk, venison or antelope steaks. Be sure to drizzle a little sage butter on top of your sliced steak when serving together!

Ingredients

3 or 4 – 4" inch elk backstrap steaks (venison can be substituted)

1 tablespoon garlic powder

1 teaspoon kosher salt

Cracked black pepper (as much as you want)

3-4 Sweet Potatoes

6 tablespoons butter

1/4 cup fresh sage leaves (chopped)

Fresh chives

Sour cream (optional)

Sage Butter: Melt 5 tablespoons of butter in a small skillet over low-medium heat. Add chopped fresh sage and cook until leaves become slightly crispy. Be careful not to burn butter. Remove from heat.

Roasted Sweet Potatoes Heat oven to 425 degrees. Take a whole sweet potato and pierce it with a fork a few times. Microwave for 6-7 minutes (depending on how big your sweet potato is). Once the potato has been cooked in the microwave cut the potato in half. Then, without cutting all the way through on the ends you cut each half into squares. Spoon some of the sage butter over the potatoes. (Reserve some for your elk.) Season with salt and pepper. Bake the sweet potatoes for 15-20 minutes in the oven.

Seared Elk: Mix all garlic powder, kosher salt and black pepper together and rub on all sides of elk steaks. Be sure that your elk steaks are room temperature before cooking. Melt remaining butter in a cast iron skillet over high heat. Add elk to the HOT skillet and brown on all sides until you get a rich dark coloring. Remove from skillet and let rest covered loosely with foil for 10 minutes. Slice against the grain when serving and top with remaining sage butter! ~Enjoy!

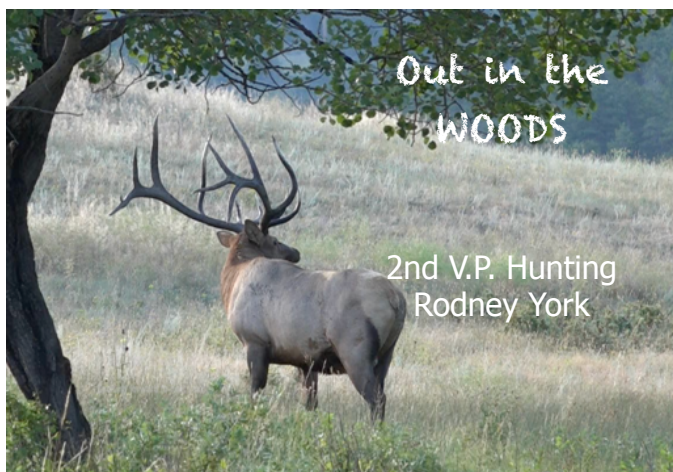

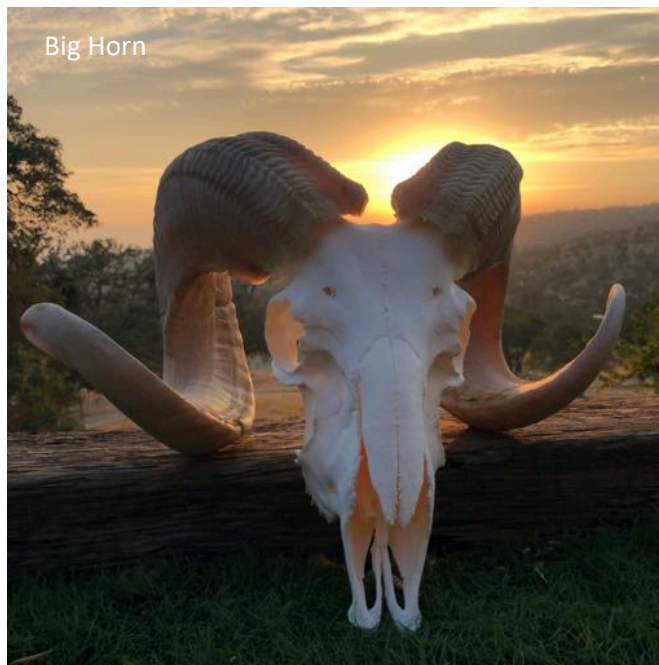

4x4 Sunset Background

Hog n Tusk -silver

Marmot or Beaver

running parallel with the traffic pulled the vehicle left and right continually. A four day monsoon loosened the red clay and our parked vehicle slid off the bank into a ditch, and finally a dandy 6x6 bull elk was not recovered when the 10,000 elevation; four day snowstorm blew in. Then there was the time when hunting Catalina Island the shot billy fell off the cliffs into the Pacific Ocean. After grabbing a huge cactus to save myself I had the privilege of field dressing him in sync with the the ebb and flow of the tide. Ah,... good times in the field! If I had a job where I had to work that hard and put up with so much garbage - I would *quit the first day!*

"I HUNT", a song by Chad Slagle on his album "Nights Like This"; sings of teaching the young to hunt. And hunt I did from an early age. One of my finest hunts traversed a month's time, hiking in and out of "my spot" eighteen miles each weekend. And you know the story, it was up hill both ways. The monarch I sought was one a fisherman had told my friend of. He was a rock buck, and a mon- ster by all accounts. Though I lay at the base of the bowl he inhabited and glassed all day he had not revealed himself to me in more than 30 days. The last weekend of archery season found me there again on my sisters birthday. An hour into the glassing expedition I first laid eyes on him. Still with some velvet the huge four point had a fork of equal length hanging down from his left side. Seven hours later my approach had lead me out on the rock ledge immediately above the monster. One fluid motion, drawing the bow from bent knees in sock feet. Passing the bedded buck and releasing 10 yards in front of his escape. A perfect arrow. One hundred and five pounds of boned meat and cape were my reward. When I am practicing my shooting before a trip and shoot a *perfect* arrow, I stop. Hunting memories are the same in this way. I always try to focus on the good memories last, and perhaps even embellish the warmth of those thoughts to expedite my next trip... back out into the woods.

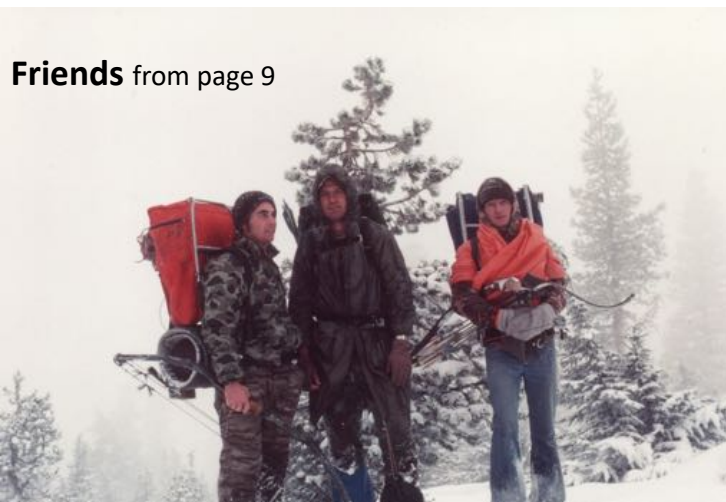

Looking Back...

can be a good, or a bad thing - depending on the situation and outcome of the event(s). Reflection can lead to a positive attitude and introspection can help a person grow in character and maturity.

Perseverating, or rehashing things many times is often associated with negative events or bad results or memories. These of course can create a negative attitude and life experiences.

Retrospect can lead a person to the discovery of many things that in the moment went un-noticed.

Reminiscing is usually reserved for those fond memories like your 5th birthday party, first kiss or a hunt from the 70's. Hunting memories are often categorized in a similar manner. They can conjure up some of the same - both good and bad. I recall a hunt where everything went wrong. WE got accused of not paying for a meal when we paid with a hundred dollar bill, got pulled over and had to unload everything in the truck (the officers thought we were drunk or on drugs). The truth of the story was that the metal strips

BE PREPARED, FRIEND! RODNEY, DON NELSON, RON

Continued on page 15

Friends from page 14

It was nearly fifty years ago that Ron Crouch and I met at Safari of Fresno Field Archers. Both of us loved shooting bows and watching the arrows in flight. What knit our close friendship together most was a shared interest in hunting with our bows. Our first “*great adventure*” was a backpacking trip to an elevation of just in 10,000 feet. On opening weekend in August, even at this elevation most wouldn’t think of a California snow storm. But storm it did,... and over eight inches. Have you ever heard of hypothermia? Well we learned quickly, it was either that or parish! Look closely and you will see socks and tents have more than one application (as should all the items your back carries into the wilderness).

Another friendship I can’t dream of living without, is the lasting one with Art Cain. We have hunted and vacationed together. We have wept together and prayed together. We have celebrated children’s births, daughters weddings and grandchildren together. Man, who would want to live without friendships?

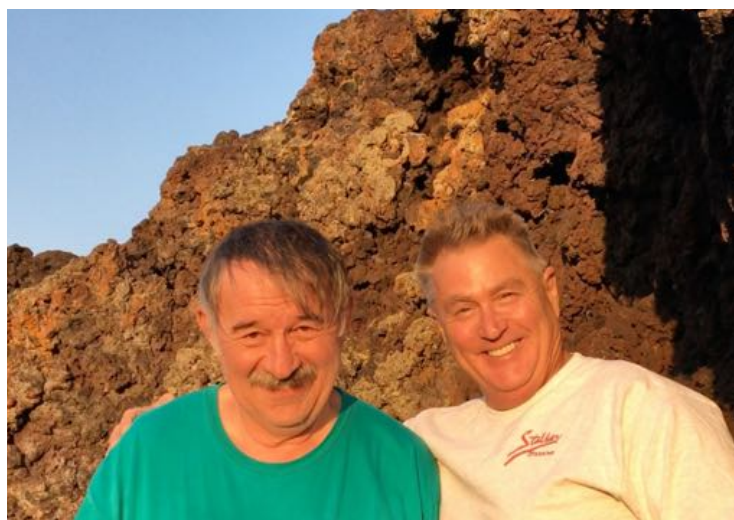

**POPE AND YOUNG HEADQUARTERS
- ART & RODNEY -**

All the happiness and over abundance of joy we have shared. Whether in Alaska or at the Pope and Young Museum in Chatsfield, IN, we have lived life together. I am still understanding how beneficial friendship are - and I love learning about them. From celebrating a harvest together to enjoying each others stories and camaraderie - friendships are so worth all that you can invest in them. Rich and enduring, that is what friendships are all about.

SWEET SUCCESS RODNEY AND JACK

Of all the friendships life has blessed me with, the one that has that has lasted almost as long as time itself, is the one from grade school days. From kindergarten and first grade the name of Randy Wilson has been synonymous with truth, faithfulness and a jovial nature. There really isn’t much that we haven’t shared with each other. We know the others weakness as well as strengths. No, of course we haven’t always agreed. It’s true I didn’t wait for Randy to get out of the Marine Corps before I married Alice (but hey, that’s a different kind of friendship). It’s also true I wouldn’t pick a tree for Randy to hang his stand in, but I was privileged to be there as he wrapped his tag around his first harvest with bow and arrow in hand. So you see, friendships are like diamonds in that each is uniquely different with more facets than the finest of diamonds. Best of all, friendships have lasting value. As Amy Grant/Michael w Smith sang in 2003 in “*Friends*”, friendships are fertile soil, they keep you close, they keep us strong. A friend will not say never. Their refrain states it all best in, “friends are friends forever”

LIFE TIME FRIENDS - RANDY/RODNEY

Conejo Valley Archers Spring Classic

March 13-14, 2021

Three Archery Tournaments in One! Thrice the Challenge! Thrice the Fun!

NFAA Field Round • 3-D Round • American 900 Round

Open and Traditional Money Classes (M/F) for *Each* Tourney! At Least \$3,360 in Prize \$\$\$!

Schedule	Saturday (13th)	Sunday (14th)
Registration Opens	7:00-8:30	7:00-8:00
Ranges Open: 3D and 28 Field	7:30-4:30	7:30-12:30
900 Round — Practice Round	8:30	8:30
900 Round — Start	9:00	9:00
Score Cards Due	4:30	2:00
Awards		2:30

**Shoot one, two, or all three Tournaments over two days.
Shooting Styles: Compound, Traditional, and FITA Recurve**

American 900 Round
5 ends of 6 arrows/dist.
4 minutes per end
122cm targets (5-ring option)
3 yardage distances:
⇒ Senior 40-50-60y
⇒ Adult 40-50-60y
⇒ Y.A. 40-50-60y
⇒ Youth 30-40-50y
⇒ Cub 10-20-30y
Money Classes Shoot Adult

3-D Round
25 targets
Unmarked yardage
No Range Finders!
2 arrows per target
Traditional: 33y max
Compound: 50y max
Cub/Youth: 25y max
Money Classes shoot Adult stakes by style (Comp. or Trad.) and cannot purchase Mulligans or a Doe Tag

NFAA Round
28 targets
Marked yardage
4 arrows per target
5-4-3 scoring
Money Classes shoot Adult stakes by style (Comp. or Trad.) and use 6-5-4-3 "Pro"
For more information or to register online click here

Entries and Extras	Fees
First Tournament	(non-money class)
Adult/Senior	\$30
Young Adult (15-17)	\$25
Youth (12-14)	\$20
11 & Under	\$15
Second Tournament	\$15
Third Tournament	\$10
Family Max ^a	\$125 ^b
3D Mulligan (2 Max)	\$1 each
3D Doe Tag (1 Max)	\$1
Pre-Register and pay with PayPal by 2/1/21	\$10 off of total fee
Pre-Register by 2/28/21 and pay Day 1 (3/13/21)	\$5 off of total fee
All Money Classes	(money class)
Each Tournament	\$50 ^c (\$150 for all 3 tourneys)
Pre-Register and pay with PayPal by 2/1/21	\$10 off per tourney (\$40 each after \$10 off)
^a Family: Parents and minor children	
^b Family Max not offered if Money Class entries included	
^c \$20 of each money class entry fee added to Pot	

Awards for all Divisions in each tournament (M/F) (Senior, Adult, Y.A., Youth, & Cub)

Grand Champion: Total Score for all three tournaments (non-money class only)

Thank You for your Donations to the CBHSAA Legislative Defense Fund!
By Robert Moore- Legislative Coordinator

I want to thank those that have donated funds to our Legislative Defense Fund. With your donations, your Legislative Team, representing the six DFG Regions, can attend important meetings and react to issues that are impacting our sport. We can also meet our Financial Obligations to Gaines and Associates who represent us in the state capital, at all DFG meetings, and up and down the state when and where needed. Their goals are to promote wildlife conservation and protect our archery and hunting heritage within the state political system. However, we are, and always will be, responsible for all costs over and above their obligation to us. That is, when CBH/SAA has to retain a legal team to protect us and our sport, it will be at our expense. This is why your donations are so important to the Legislative Defense Fund in any amount you can afford. Again, I would like to thank those listed below in addition to those that donated previously for their support.

THIS MONTH'S DONATIONS INCLUDE:

Individuals:

THANK YOU

**Amanda Duchardt \$50, Marlin Stapleton \$100,
Joe Becker \$200, Arthur Duffy \$100**

THANK YOU
