LEGISLATIVE DIRECTOR

Greetings CBH/SAA friends and family!

Welcome to your comprehensive legislative, regulatory, and tournament update for August 2026!

Activity at our State Capitol is running at full throttle, and recent regulatory meetings have proven to be both highly consequential and intensely debated.

Amanda Duchardt

At the May 14 Wildlife Resources Committee (WRC) meeting, the hunting and conservation community faced a relentless onslaught of extreme anti-hunter rhetoric. Crazy accusations flew wildly—including a bizarre claim specifically targeting bowhunters and archers as "silent murderers" who kill without anyone knowing. Kudos to our community members in attendance who remained calm, silent, and professional, letting these unhinged testimonies completely undermine their goal of ending the "depravity" of hunting. Despite the noise, we continue to secure significant wins and are closely tracking structural changes to future hunting seasons. Below is the vital breakdown of what you need to know.

2026 State Unmarked 3D Championship Updates

Mark your calendars for November 8, 2026, at Cherry Valley Bowhunters. Online registration is now open! Dust off your bows, practice your yardage estimation, and come join us for a fantastic competitive shoot. Please share the event flyer with local clubs and shops.

Are you looking to highlight your home range and bring the state's top archers to your neck of the woods? CBHSAA is actively seeking host clubs for our 2027 and 2028 State Unmarked 3D Championship tournaments. To make hosting as seamless and profitable as possible for your local club, we offer immense operational flexibility:

- Flexible Tournament Dates: Pick a weekend that fits your club calendar and local weather patterns perfectly.
- Flexible Host Fees: We will work with your club to establish a mutually beneficial fee structure.
- Piggyback Options: To minimize administrative work and maximize attendance, clubs have the option to piggyback the state tournament format right onto an existing, established club shoot.
- Please contact Amanda Duchardt for more information or to express your club's interest. More next page

State Capitol Legislative Highlights

Through our government relations team at Gaines & Associates, CBHSAA is actively monitoring and steering legislation affecting bowhunters, archers, and conservationists across California:

- **AB 1912 (Archery Deer Season: Concealed Firearms)** – SUPPORT: Co-sponsored by the CBHSAA and the California Deer Association, this crucial bill corrects a frustrating legal disparity. While current regulations allow CCW permit holders pursuing other big game species during archery season to carry a concealable firearm for personal safety, state law has long denied that exact same protection to archery deer hunters. AB 1912 would repeal this prohibition, giving archery deer hunters a legal means of self-defense against immediate threats like illegal marijuana cultivation sites or aggressive apex predators.
 - **Status Update:** Because it carries no fiscal impact to the state, the bill successfully bypassed the Assembly Appropriations Committee. It passed off the Assembly Floor on consent on April 16 and has moved over to the Senate, where it was referred to the Senate Natural Resources and Water Committee. The bill was also successfully passed out of the Senate Public Safety Committee on consent on June 30. It is expected to go to the Senate Floor for vote when the Legislature returns from break on August 3.
- **AB 1722 (CESA Take Prohibition: Self-Defense)** - SUPPORT: This bill protects individuals from civil, administrative, or criminal penalties for taking or attempting to take a protected species if they acted in good faith and used necessary, reasonable force to protect themselves or another person from immediate bodily harm. The individual must notify the Department of Fish and Wildlife (DFW) within 24 hours of the encounter.
 - **Status Update:** Cleared multiple committees without a single "no" vote and is currently on the Assembly Floor, where it can be brought up for a vote at any time.
- **SB 1305 (Grizzly Bear Reintroduction Study)** – OPPOSE: CBHSAA has joined a strong wildlife conservation coalition opposing this bill, which mandates California Department of Fish and Wildlife (CDFW) evaluate the feasibility of reintroducing grizzly bears to California. Adding North America's dominant terrestrial apex predator would severely escalate an already intense predator crisis. It poses massive public safety concerns for outdoor recreationists and would further suppress California's fragile deer herds, which are already in steep decline due to heavy predation from black bears and mountain lions.

<https://cbhsaa.org>

- **Status Update(SB1305):** Unfortunately, despite our wildlife coalition's active opposition and the opportunity for Bill Gaines to present the lead opposition testimony on our coalition's behalf before the Committee, SB 1305 passed the Assembly Water, Parks and Wildlife Committee on Tuesday by an 8-2 party-line vote, with three Members not voting. SB 1305 now moves to the Assembly Appropriations Committee, where it must be heard by August 14 to meet legislative deadline.
- **AB 2207 & SB 1021 (Youth & Disabled Veteran Programs) - SUPPORT:** AB 2207 establishes a limited hunting tag transfer program allowing voluntary, intrafamily tag transfers to youth, as well as organization-facilitated transfers to disabled veterans and youth with serious medical conditions. SB 1021 requires the Fish and Game Commission to establish a program to expand big game, wild pig, upland, and migratory bird hunting opportunities for resident youth facing life-threatening illnesses.
 - **Status Update: AB 2207** passed the Assembly on May 14. The bill was also heard in the Senate Natural Resources Committee, passed on a 7-0 vote, and was re-referred to the Senate Appropriations Committee.

Other Noteworthy Bill Statuses:

Here are the mid-summer updates on several key bills we have been monitoring closely as they work through the final stretches of the 2026 legislative session:

- **AB 1948 (Firearms: Concealed Carry Licenses) – MAJOR SUCCESS & SIGNED INTO LAW:** We are thrilled to report a massive legislative victory for California sportsmen! After passing the Assembly, AB 1948 sailed through the Senate with a unanimous 38-0 vote on June 15, 2026. The bill was officially approved by the Governor and chaptered by the Secretary of State on June 30, 2026 (Chapter 44, Statutes of 2026). Extending CCW license validity from two years to three years is now officially California law, which will significantly reduce administrative burdens, renewal frequencies, and time commitments for law-abiding permit holders.
- **SB 1397 (Mountain Lions: Human-Mountain Lion Conflict Program) – PASSED SENATE & ADVANCING:** Following its short stay on the Senate Appropriations suspense file, this bill successfully passed out of committee at the May 14 suspense hearing with amendments. It immediately advanced to the Senate Floor, where it passed with a decisive, unanimous 39-0 vote on May 28, 2026.

<https://cbhsaa.org>

SB 1397 (continued) has moved over to the Assembly, where it was read for the first time and recently amended on July 1, 2026, as it continues to advance through the committee process. This remains a highly supported, proactive effort to expand non-lethal deterrence methods and scientific research to prevent mountain lions from habituating to human communities.

- **AB 1673 (County Fish and Wildlife Propagation Fund) – AMENDED & KILLED:** This bill originally cleared the Assembly to expand the allowable uses of county propagation funds to cover human-wildlife conflict resolution programs. In early June, the bill was amended in the Senate to give rural livestock producers additional practical, non-lethal tools—specifically allowing the possession and use of authorized tear gas weapons (such as pepper-ball deterrents) to haze wolves and protect property. Unfortunately, facing steep committee opposition, the bill's first Senate hearing on June 18, 2026, was canceled at the request of the author, officially killing the bill for this session.

Private Lands Management (PLM) Program Updates:

The PLM Program has reached a record 124 properties across 28 counties, protecting tens of thousands of acres of managed habitat. However, CDFW introduced several "modernization" concepts that have drawn intense scrutiny:

- **The Proposals:** Requiring department access for scientific monitoring and surveys, capping elk tags at one per year to align with other state programs, and allowing the removal of participants for license agreement violations rather than requiring a formal criminal conviction.
- **The "Poison Pill":** The most contentious proposal involves introducing a mandatory, limited public access requirement to "balance the exchange of public resources." Landowners and hunting advocates have vehemently opposed this, calling it a poison pill that could trigger widespread withdrawals from the program due to severe liability, safety, and operational challenges on working ranches. Hunting reps highlighted that many PLM participants already voluntarily donate tags to youth, veterans, and conservation fundraisers. Conversely, anti-hunting advocates criticized the program as "privatizing" public wildlife and demanded stricter predator regulations.
- **Next Steps:** Due to the massive wave of concerns, the Committee delayed formal rulemaking to allow for more extensive stakeholder engagement. CDFW will hold listening sessions with landowners to find a "win-win" solution (such as voluntary incentives or structured donations) before discussions resume at the September WRC meeting.

2027–2028 Elk & Bighorn Sheep Management

- **Elk Proposals:** Big Game Supervisor Shelly Temple King presented two concepts for the 2027–28 season: Increased Opportunity (boosting tag allocations and adjusting dates in regions suffering from severe agricultural damage and human-wildlife conflicts) and Regulatory Reorganization (restructuring Title 14, Section 364 into user-friendly tables and renaming "Hunt Areas" to "Elk Management Zones" for statewide consistency).
- **Bighorn Sheep:** No new regulatory updates are proposed for the 2027–28 cycle. Agency staff are strictly prioritizing demographic data collection and generating the comprehensive Northern Deserts Bighorn Conservation Unit Plan.

2027 Black Bear Management Framework

CDFW provided four core administrative and regulatory concepts for 2027 implementation (maintaining the 1,700 harvest threshold):

- **Bear Conservation Regions (BCRs):** Transitioning the state into six distinct hunting BCRs with independent harvest ceilings set below a highly conservative 8% harvest rate.
- **Cub Weight Classification:** Elevating the legal weight defining a protected "cub" from under 50 pounds to under 80 pounds to more accurately reflect native biological development at 10–11 months of age.
- **Season Gaps:** Eliminating historical one-week general season lags and archery gaps in Northern California X-zones to simplify scheduling. Look for an expanded archery bear season!
- **Reporting Streamlining:** Consolidating tooth extraction tracking and tag validation under a singular 10-day deadline, introducing online reporting, and instituting a non-reporting penalty fee starting July 2028.

These bear proposals were highly favored by hunting advocates and conservation stakeholders alike for strengthening juvenile protections. Josh Brones (California Deer Association) stated, "Most notably, and the proposal that I'm personally most excited by is... the proposed implementation of the Bear Conservation Regions. This represents a very important step towards modernizing California's bear management strategy... it better recognizes the regional variation in habitat productivity, bear density, hunting pressure, population dynamics..."

Note on Enforcement: Concerns were raised regarding the 10-day validation window. Former CDFW Chief of Law Enforcement and Deputy Director David Bess cautioned: "Let's just make sure that we... have good coordination and conversation with the law enforcement division. 10 days is a long time to have that bear tag out there, floating around..."

General Public Comment Summary

During the open public comment window, several critical ethical and tribal items were brought forward:

- **Bear Relocation Frameworks & Urban Trapping:** Speakers raised the case of "Blondie," a mother bear euthanized in Monrovia, urging the state to prioritize non-lethal black bear relocation frameworks over euthanasia. Attention was drawn to Senate Bill 1305 (California Grizzly Restoration Act) as a structural vehicle to force the department to redefine its broader bear relocation policies.
- **Mute Swan Management and Misidentification Risks:** Representatives from In Defense of Animals and the National Goose Protection Coalition voiced strong concern over hunting invasive mute swans.
- **Urban Coyote Euthanasia and Gas Chambers:** Commenters criticized municipal coyote trapping practices, specifically naming past historical protocols in the City of Anaheim. They requested a definitive, transparent ban on structural carbon dioxide gas chambers.
- **Tribal Sovereignty, Land Care, and Subsistence Harvesting:** Members highlighted a March 2026 California Natural Resources policy objective aiming to restore roughly 7.5 million acres of ancestral lands back to the custodial care of native tribes. Commenters urged the Commission to systematically integrate tribal subsistence harvesting rights and collaborative tribal co-management partnerships across all upcoming regulatory agendas, including the restructuring of private land management access.

As always, your knowledge and experience are our greatest assets. If you have questions about these bills or want to get more involved, please reach out to the Legislative Committee.

**"Legacy is not leaving something for people.
It's leaving something in people." — Peter Strophe**

Richard English

But this class I would have the honor of sharing that space with two mentors! Both past IBEP Chairman in CBH/SAA. Joe Becker who certified me into the instructor world and Johnnie Waddles who I am proud to have recommended me into this IBEP Chairman role I am now honored to hold. Both Johnnie Waddles and Joe Becker shared the classroom instruction with me this past class.

This sparked memories of them sharing the instructor role in the class I took many decades ago at Frontier Archery in Rancho Cordova, California. Now decades later, between these two gentlemen's years of teaching combined it is nearing 100 years of instruction, YES one Hundred years of experience and the sharing of Bowhunting to the generations.

So, I would ask each of you, how are you passing on the tradition bowhunting? The joy of giving back to the art (Bowhunting & Archery) is natural for me. This is a movement which has given me so much in life, seems natural.

IBEP CHAIRMAN

Cover Story

Passing On The Tradition

Recently, I had the privilege of teaching another IBEP International Bowhunter class here in Northern California at Maya Bowhunter. This class was special and will remain in my memories. I find it an honor to routinely teach with one of my mentors in bowhunting and bowhunter education Johnnie Waddles.

We have a lot of good people in Bowhunting/Archery. For the tradition to continue and to grow it takes individuals giving back. There are several ways to give back to the community. Volunteering at your local Archery club, teaching the National Archery in the Schools Program (NASP) or getting involved in the hunting legislative efforts, being certified instructor to help with Scouting groups archery badges. Or taking a local club, CBH SAA or National level leadership or volunteer role.

Johnnie Waddles and I have co-taught the IBEP class for decades. Having a friend to share the giving is a wonderful way to stay involved in giving back to Bowhunting/Archery. Cont. Page 11

HISTORIAN

A Little Bit of History

When the Bow Returned to the Hunt

There was a time in America when the bow had nearly slipped into history. Rifles had taken over the mountains and plains, and the longbow was viewed as something from another age. Then, in the early 1900s, a handful of determined men proved the old weapon still had life in it. Through skill, hard miles, and real game taken in the field, they brought the bow back where it belonged—into the hunt.

Will Compton was one of the early sparks. A western hunter with practical skill, he shot instinctively and hunted because it mattered. His archery wasn't built in exhibition halls—it was shaped by real country and real game. Compton showed that a man who understood woodcraft and distance could rely on a simple stick and string. Before the books were written and expeditions planned, he was already proving the bow worked.

Saxton Pope brought discipline to that raw ability. A physician by trade, he approached archery with a careful eye. In *Hunting with the Bow and Arrow*, he wrote plainly about arrow flight, broadhead sharpness, draw weight, and shot placement. He tested his tackle. He recorded his groups. He wanted solid proof that a bow could cleanly take big game. And then he stepped into the field to back up his findings. Pope gave modern bowhunting its foundation.

Where Pope measured, Art Young pushed limits. Young hunted hard and bold. In Alaska, he faced big bears at close range.

In Africa, he showed the world that dangerous game could fall to a well-placed arrow. His hunts were not theory—they were proof under pressure. Young demonstrated what confidence, steady nerves, and relentless practice could accomplish when the moment came.

Together, these men marked a turning point. The bow was no longer a curiosity or a museum piece. It became once again a serious hunting weapon. Cont. next pg.

<https://cbhsaa.org>

A little Bit of History- Continued - They proved that success with archery was not about nostalgia—it was about getting closer, reading sign better, moving quieter, and placing an arrow exactly where it belonged.

“When the Bow Returned to the Hunt” is more than a title. It represents that shift in American hunting history—the moment when the longbow stepped back into the timber, not as a relic, but as a challenge willingly embraced. The rifle could reach farther. The bow demanded more. And for these men, that was exactly the point.

Passing On The Tradition from page 9

- So, as you make your hunting plans, or focus on your next Archery shoot, pause and think about giving back, start small, think where you could lend your professional skills to help Bowhunting/Archery locally or even broader. If you are thinking I might like to do that then reach out and do it. Until the next time keep the tradition alive!

The deadline for the September Newsletter is: August 10th!

CALIFORNIA BOWMEN HUNTERS

A lover or student of archery is called a toxophilite. This unique term combines the Greek words toxon (meaning "bow") and philos (meaning "loving")

<https://cbhsaa.org>

WANT TO HOST THE JANUARY 2027 CBH/SAA INDOOR 450 CHAMPIONSHIP?

Bids for the State Indoor must be given to the 2nd VP of Indoor by August 6th (CBH/SAA Bylaws, page 15, Section E). Your range must have current range certification and have a current NFAA charter or shop license to be eligible. Hosts are paid \$15 per entry plus expenses, if requested. There will be online registration with optional onsite registration.

Send your request to be a host to Gabrielle at cbh.2vpindoor@cbhsaa.org

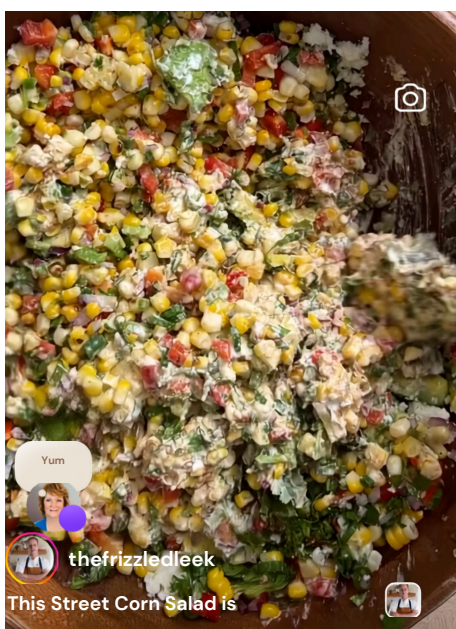

These photos from January 2026 State Indoor

On The Archer's Table

This Street Corn Salad goes with anything Barbecued. I could eat it as a main meal. It was a real hit at our Independence Day celebration.

Check out Chef Mike's video on Instagram @thefrizzledleek

- 4 cups corn (5 ears)
- ½ red pepper (diced)
- ½ red onion (diced)
- ½ cup cilantro (chopped)
- 6 green onions (thinly sliced)
- ½ avocado (chopped)
- 1 lime (juiced)
- ½ tsp cumin
- ½ tsp smoked paprika
- ¼ tsp black pepper
- 1.4 tsp salt
- 2 T sour cream
- 2 T mayonnaise
- ½ cup cotija cheese

Instructions:

1. Grill the corn until slightly charred. Cut corn off the cob.
2. Toss all of the ingredients in a large bowl and serve.

Have a family favorite, please send it to: cbh.newsletter@cbhsaa.org
<https://cbhsaa.org>

HOW TO PLACE YOUR ADS

Go to- <https://cbhsaa.org/Home/Newsletters>, click Advertising with CBHSAA, complete the form, then select Submit Your AD.

SUBMISSION DEADLINE (NEW): The submission deadline is the 10th of each month for the following month's issue. Questions? Call or text 619-368-2948. Send files in JPG, DOC, or PDF format (under 1MB for PDFs); some fonts may be replaced for legibility.

PAYMENT: Payments must be received before the deadline—mail to CBH/SAA Treasurer, 2315 Western Oak Drive, Redding, CA 96002, or submit payment online when you send your ad. We accept checks, credit cards, and PayPal.

PLEASE NOTE:

CBH/SAA is not responsible for errors in ads not created by CBH/SAA. Any corrections must be submitted in writing (emailed).

Articles, stories, and ads reflect the opinions of their contributors and not necessarily those of this publication.

Have you considered donating to the CBH/SAA Legislative Defense Fund?
Now is the time!

With your annual donation of \$100 (e.g., ~\$9/month or cumulative \$100/year donation) to the CBH Legislative Defense Fund, we would like to thank you with a gift of the CBH/SAA Legislative Defense 2026 Challenge Coin. This year's coin memorializes our ongoing efforts to ensure timely completion of the Bobcat Management Plan and restoration of bobcat hunting in California based on science.

To donate, visit <https://cbhsaa.org/Legislative/Donate>. Thank you for your support!

THANK YOU for your donations to the CBH/SAA Legislative Defense Fund

The CBH/SAA Legislative Team would like to extend our wholehearted thanks to all those that donated to the Legislative Defense Fund. It is our goal to promote wildlife conservation and protect our archery and hunting heritage within the state political system. With your donations, the CBH/SAA Legislative Team can attend important meetings and address issues that are impacting our sport. We can also meet our financial obligations to Gaines and Associates, who represent us in the state capital and FGC meetings throughout the State. Additionally, it is our responsibility to cover any legal expenses when we need to retain a legal team to protect us and our sport. This is why your donations, in any amount, are so important. Again, we thank those listed below in addition to those that donated previously for their support!

Cougar Mountain Archers Father's Day Shoot: \$122

THANK YOU!

To donate, visit <https://cbhsaa.org/Legislative/Donate>.
